

AGREGADO V

PET-PCR GRADO ALIMENTARIO - REFERENCIAS BIBLIOGRAFICAS

1. "Guidance for Industry: Points to consider for the use of recycled plastics in food packaging: Chemistry Considerations". Version 2.0. Center for Food Safety and Applied Nutrition (CFSAN) – Food and Drug Administration (FDA) – US Department of Health and Human Services, 16 de Julio de 2002, actualizado al 6 de enero de 2004.
2. "Recycled plastics in food packaging". Office of Food Additives Safety. Center for Food Safety and Applied Nutrition (CFSAN) – Food and Drug Administration (FDA) – US Department of Health and Human Services, octubre de 2003, actualizado al 1º de diciembre de 2003.
3. "The threshold of regulation and its application to indirect food additive contaminants in recycled plastics". Forrest L. Bayer. Food Additives and Contaminants, 1997, vol. 14, N° 6-7, 661-670.
4. "PET recycling for food-contact applications: testing, safety and technologies: a global perspective". Forrest L. Bayer. Food Additives and Contaminants, 2002, vol. 19, Supplem., 111-134.
5. "European survey on post-consumer poly(ethylene terephthalate) (PET) materials to determine contamination levels and maximum consumer exposure from food packages made from recycled PET". R. Franz, A. Mauer y F. Welle. Food Additives and Contaminants, 2004, vol. 21, N° 3, 265-286.
6. "Guidance and criteria for safe recycling of post-consumer polyethylene terephthalate (PET) into new food packaging applications". Roland Franz, Forrest Bayer y Frank Welle. EU-Project FAIR-CT98-4318 "Recyclability". Programme on the recyclability of food packaging materials with respect to food safety considerations – Polyethylene terephthalate (PET), paper and board and plastics covered by functional barriers. Fraunhofer Institut Verfahrenstechnik und Verpackung (IVV), Freising, Alemania, febrero de 2003.
7. "Guidance and criteria for safe recycling of post-consumer polyethylene terephthalate (PET) into new food packaging applications". Roland Franz, Forrest Bayer y Frank Welle. EU-Project FAIR-CT98-4318 "Recyclability". European Commission, Bruselas, 2004.

8. "Uso de material reciclado en contacto con alimentos: desarrollo de metodología de evaluación de aptitud sanitaria de botellas de PET monocapa para gaseosas". Alejandro Ariosti, Guillermo De Rosa, María Raquel Fernández, Gabriela Fernández, Marcelo Isleño, Adriana Rosso y Mariana Ruiz de Arechavaleta. 5as. Jornadas de Desarrollo e Innovación. INTI, noviembre de 2004.
9. "Uso de materiales plásticos reciclados en contacto con alimentos. Barreras funcionales." Alejandro Ariosti. En: "Migración de componentes y residuos de envases en contacto con alimentos". Ramón Catalá y Rafael Gavara, editores. Instituto de Agroquímica y Tecnología de Alimentos, Valencia, España, 2002.
10. "Legislación sobre envases para alimentos en los Estados Unidos". Paul M. Kuznesof (Office of Food Additive Safety; Center for Food Safety and Applied Nutrition; FDA-USA). En: "Migración de componentes y residuos de envases en contacto con alimentos", op.cit.
11. "Recycled materials and safety considerations for direct food contact – FDA view". Paul M. Kuznesof (Office of Food Additive Safety; Center for Food Safety and Applied Nutrition; FDA-USA). En: "Memorias del Seminario Internacional Reciclagem de PET pós-consumo para contato com alimentos". Campinas, Sao Paulo, Brasil, 17 y 18 de setiembre de 2003.
12. "Recycled PET in food contact application: a global prospective". Forrest L. Bayer (Director Packaging Scientific and Regulatory Affairs, The Coca-Cola Co., USA). En: "Memorias del Seminário Internacional Reciclagem de PET pós-consumo para contato com alimentos", op.cit.
13. "Recycling of plastics for food contact use – Guidelines prepared under the responsibility of the International Life Sciences Institute (ILSI) European Packaging Material Task Force". ILSI, Bruselas, Bélgica, 1998.
