KOR/257	08/01/10	31/12/10	Medical devices	Korea - Medical devices With a view to harmonizing domestic regulations with international norms, performance and safety requirements are established for intraocular lenses, balloon dilation angioplasty catheters, dental cartridge syringes, non-implantable injection port caps. The proposed measure establishes standards and specifications separately for acupuncture needle for single use and reusable acupuncture needle, and sets limits for lead, tin, zinc, iron and other heavy metals to be in line with international standards
KOR/258	08/01/10	09/03/10	Cosmetics	Korea - Cosmetics This proposed amendment is to incorporate into "Korean Quasi-drug Codex" specifications of quasi-drugs and insecticides, and testing methods of insecticides which are laid down in the Korean Pharmaceutical Codex. This measure requires manufacturers and importers to conduct microbial limit testing (E.coli, Pseudomonas aeruginosa, Staphylococcus aureus) for sanitary napkins which contain herbal medicine as deodorant, and establishes methods for such testing. Standards and specifications are established for 4 items including disposable sterile adhesive plasters, ethanol gel, compound nicotinamide "dexpanthenol "biotin solution
KOR/259	08/01/10	28/01/10	Foods	Korea - Foods For products such as candy, chewing gum, chocolate and jam, if a product of minimum unit for sale has the principal display panel no larger than 30 square centimetres, and the product is packaged in a way that may be displayed and sold in a single container or package, label may be put on that single container or package. Standards and a design for front-of-pack (FOP) labelling is introduced for voluntary content of nutrition information intended to be placed on the principal display panel. Reference amount of a serving size for pizza is established at 150g and is revised for carbonated beverage and mixed beverage at 200ml each.
KOR/260	19/01/10	20/03/10	Grain moisture meters	Korea - Grain moisture meters - Revision of the technical standard for Grain moisture meters to classify grain species to measure. (1. scope) - Revision of the maximum permissible errors for metrological control of grain moisture meters by using capacitance (5.1 maximum permissible errors, $\pm 2.0$ % M.C. ' $\pm 1.0$ % M.C.)
KOR/261	19/01/10	20/03/10	Livestock products	Korea - Livestock products - Revision of Ingredient specification (deletion of solid and content specification) in bottled/canned livestock products - Revision of Processing standard (addition of oligosaccharides to sugars) in sweetened condensed milk, sweetened skimmed condensed milk and sweetened milk powder - Revision of Storage and Distribution standard (The recommended storage & distribution temperature is 0~15°C) for table eggs

The labels shall be eligible, printed as prescribed and contain the following statement: "Sale of alcohol beverages to persons under 20 years old is prohibited, Penalties for Violation: one-year imprisonment or 20,000 baht fine"</p> <p>3. Pictorial labels shall be provided with the warning statements on the harm of alcohol wherein the picture shall be printed in 4 colors and 6 types of which one of them is required to be rotated at 1,000 package intervals. The following 6 types of pictorial labels/ warning statements shall be labelled in accordance with the templates as appeared in the annex :</p> <p>Type 1. "Drinking alcohol causes the hypertension liver cirrhosis"; Type 2. "Alcohol intoxication leads to the accidents"; Type 3. "Drinking alcohol leads to unconsciousness and even death"; Type 4. "Drinking alcohol leads to inferior sexual performance"; Type 5. "Drinking alcohol leads to adverse health effect and family problems"; Type 6. "Drinking alcohol is a bad influence on children and young people".</p> <p>4. The publication of pictorial labels/ warning statements under Clause 3 is specified as follows: (1) If the package is in rectangular shape, the space shall not be less than 50 percents of the space of each side with the maximum space or the front and the back side of the package, or not less than 30 percents of the total area of the packages if the package is in round or cylinder shape . (2) If the package is of the other shape than as specified above, the warning statements shall cover the space no less than 30 percents of the total surface area of the package. To conform with the label requirements, the manufacturers or importers of alcohol beverages shall only provide the labels as well as adjust the size of statements from the template stipulated by Office of the Alcohol Control Committee, Ministry of Public Health.</p> <p>5. This draft notification shall not apply to the alcohol beverages manufactured or imported for distribution out of the Kingdom of Thailand, or for the specific purposes as samples for testing, analysis, or research; or for non-commercial benefits in the Kingdom.</p>
TPKM/56/Add.1	29/01/10	28/02/10	Power press or shearing machinery similar equipment	<p><a href="#">Taipei Chino - Power press or shearing machinery similar equipment - Addendum</a></p> <p>Power press or shearing machinery and similar equipment were announced to be subject to mandatory inspection on 1 July 2009 to ensure protection of workers in the working place. The Council of Labour Affairs (CLA), the competent authority of safety of workers, commissioned the BSMI to implement inspection of these products. The inspection standard "Safety Standard of Prevention and Guarding Devices-Machinery and Tools" was amended and adopted by the CLA on May 13, 2009 to take into account comments from interested parties. As a result, the BSMI at the request of the CLA intends to use the revised standard to inspect the subject products beginning from 1 March 2010.</p>
TPKM/79	19/01/10	20/03/10	Fancy veneer overlaid structural glulam for decorative use	<p><a href="#">Taipei Chino - Fancy veneer overlaid structural glulam for decorative use</a></p> <p>Fancy veneer overlaid structural glulam posts, structural glulam, fancy veneer overlaid glulam for decorative use and glulam for decorative use have been widely used as a kind of building materials these days. The public is concerned about pollution of indoor air by formaldehyde emitted from adhesive bonded wood products and demands restriction on the use of formaldehyde glue in the products mentioned above. The BSMI, after having consulted with interested parties, intends to regulate formaldehyde of these products.</p>
TTO/81	21/01/10	13/03/10	Aromatic disinfectants	<p>Trinidad and Tobago - Aromatic disinfectants</p> <p>This national standard specifies requirements for aromatic disinfectant fluids containing quaternary ammonium compounds (QACs) as their principal anti-microbial agents.</p>

USA/224/Add.3	20/01/10	08/02/10	Digital flight data recorders	<a href="#">United States - Digital flight data recorders - Addendum</a> The rule required certain upgrades of digital flight data recorder and cockpit voice recorder equipment on certain aircraft beginning 7 April 2010.
USA/271/Add.8	20/01/10	15/03/10	National Organic Program	<a href="#">United States - National Organic Program - Addendum</a> This proposed rule would amend the U.S. Department of Agriculture's (USDA's) National List of Allowed and Prohibited Substances (National List) to reflect recommendations submitted to the Secretary of Agriculture (Secretary) by the National Organic Standards Board (NOSB) on 19 November 2008, and 6 May 2009. The recommendations addressed in this proposed rule pertain to amending an annotation for one exempted material on the National List and establishing an exemption (use) for another material in organic crop production. Consistent with the recommendations from the NOSB, this proposed rule would amend the annotation for a listed substance and add one substance, along with any restrictive annotation, to the National List.
USA/289/Add.1	20/01/10	22/02/10	Locomotives, cab cars	<a href="#">United States - Locomotives, cab cars - Addendum</a> This final rule is intended to further the safety of passenger train occupants by amending existing regulations to enhance requirements for the structural strength of the front end of cab cars and multiple-unit (MU) locomotives. These enhancements include the addition of requirements concerning structural deformation and energy absorption by collision posts and corner posts at the forward end of this equipment. The requirements are based on standards specified by the American Public Transportation Association (APTA). FRA is also making clarifying amendments to existing regulations for the structural strength of passenger equipment and is clarifying its views on the pre-emptive effect of this part.
USA/421/Add.1	20/01/10	s/f	Children's products	<a href="#">United States - Children's products - Addendum</a> On 9 February 2009, the Commission announced a stay of enforcement that would remain in effect until 10 February 2010, at which time the Commission would vote to terminate the stay. Through this notice, the Commission announces changes to the stay including when the stay will lift as to certain testing and certification requirements and how the testing and certification requirements will be implemented or otherwise become effective with regard to specific products subject to the testing and certification requirements of the CPSIA.
USA/449/Add.2	20/01/10	s/f	Children's products	<a href="#">United States - Children's products - Addendum</a> The Consumer Product Safety Commission is announcing an interim enforcement policy regarding component testing and certification of children's products and other consumer products to the 90 parts per million (ppm) lead in paint limit and to the 300 ppm lead limit for children's products established in section 101 of the Consumer Product Safety Improvement Act of 2008
