G/TBT/N/PHL/48	17/02/06	Philippines - Portland cement DAO 1:2006 requires that all manufacturers, distributors, importers and retailers of Portland cement to comply with the requirements of PNS 07:2005 – Portland cement – Specification. A third party certification, known as the Product Certification Scheme of the DTI – Bureau of Product Standards (BPS), requires all manufacturers and importers of said product to secure a Philippine Standard (PS) License and an Import Commodity Clearance (ICC), respectively, prior to its distribution and sale. All manufacturers, distributors, importers and retailers found not complying with these requirements shall be penalized in accordance with the provision for liabilities and penalties under RA 7394, EO 913 and DAO 02:2002.
G/TBT/N/PHL/49	17/02/06	Philippines - Portland cement This notification specifies the requirements for five types of Portland Cement. It cancels and replaces PNS 07:2000 with the following changes: <ul style="list-style-type: none"><li>Exclusion of minor and trace oxides, titanium dioxide (TiO�) and phosphorus pentoxide (P�O�) in reporting alumina (Al�O�).</li><li>Enhance the marking requirement.</li><li>Addition of provisions for manufacturer’s certification on compliance to this standard.</li></ul> Revision of the reference test methods to align with current version of ASTM.
G/TBT/N/PHL/50	17/02/06	Philippines – Cement <ul style="list-style-type: none"><li>This notification pertains to blended hydraulic cements for both general and special applications using slag with Portland cement clinker or slag with line.</li></ul> This standard cancels and replaces PNS 69:1986. The revision introduced the following changes: <ul style="list-style-type: none"><li>Blended hydraulic cement with slag was classified as Portland blast furnace slag cement and slag cement.</li><li>Addition of mortar expansion and sulphate resistance in Table 2 physical requirements.</li><li>Method used in determining time of setting is vicat test.</li></ul> Product quality mark, batch identification number and appropriate colour bands were added in package marking.
