G/TBT/N/CAN/194/Add.1	15/02/07	Canada - Used oil in space heaters - Addendum
G/TBT/N/CAN/194/Corr.1	09/02/07	Canada - Used oil in space heaters – Corrigendum In point 6 (Description of content), replace the last paragraph (The ban will...petroleum resources.) with the following: The ban will divert about 7 million litres of used oil to other end uses such as re-refining. One hundred and fifty million litres of used oil is currently re-refined at Safety-Kleen, Ontario's only re-refinery and the second largest re-refinery in North America. The company's re-refinery reduces greenhouse gas emissions by almost 500,000 tonnes annually, the equivalent of taking 100,000 vehicles off the road each year. Re-refining the used oil will decrease the demand for non-renewable petroleum resources.
