AUS/72	29/02/12	28/04/12	Frozen fish products	Australia - Frozen fish products NTP 2: National Test Procedures for Determining the Weight of Frozen Fish The document describes test procedures for the inspection of pre-packaged articles of frozen fish with a quantity statement in units of mass to: (a) assess compliance with the labelling requirements and (b) ensure the actual contents comply with the shortfall provisions as specified in the National Trade Measurement Regulations 2009 (Cth). The test method described is limited to frozen fish products which are covered in an ice water glaze or fish products contained within an ice water block (block products). The test method described to measure the contents of pre-packaged frozen fish, is referred to as the "Partial Thaw" method. The test method does not apply to fish products frozen in a marinade or block products which have been plate frozen. The measurement of such products is determined in accordance with the requirements in NTP 1 (Prepackaged Articles). (info)
