G/TBT/N/ALB/21	01/05/07	Albania - Equipo a presión This Draft Decision of the Council of Ministers applies to the design, manufacture and conformity assessment of pressure equipment and assemblies with a maximum allowable pressure PS greater than 0, 5 bar. It charges the Ministry responsible for industry to take all appropriate measures to ensure that the pressure equipment and the assemblies may be placed on the market and put into service only if, when properly installed and maintained and used for their intended purpose, they do not endanger the health and safety of persons and, where appropriate, domestic animals or property. In accordance with Article 10 paragraph 1 of the Law on Products General Safety, Technical Requirements and Conformity Assessment, Pressure equipment and assemblies which conform to Albanian harmonized standards shall be presumed to conform to the essential requirements.
G/TBT/N/ARE/10	25/05/07	United Arab Emirates - Loose dates This draft standard concerns loose dates for human consumption and the sampling methods. It excludes industrial or animal feeding dates.
G/TBT/N/ARE/6	22/05/07	United Arab Emirates - Motor Vehicles This UAE draft Technical Regulation applies to: 1.1. Part I. Specific components of motor vehicles using compressed natural gas (CNG) in their propulsion system; 1.2. Part II. Vehicles with regard to the installation of specific components, for the use of compressed natural gas (CNG) for propulsion, of an approved type
G/TBT/N/ARE/7	22/05/07	United Arab Emirates - Motor Vehicles This Regulation applies to: 1.1.Part II: Specific CNG retrofit systems to be installed in motor vehicles for the use of CNG in the propulsion system. 1.2. This Regulation applies when the retrofit systems manufacturer keeps the initial characteristics of the whole system, for the specific vehicle family for which the approval has been granted. 1.3. This Regulation does not apply to the procedures, checks and inspections aimed at verifying the correct installation of the retrofit systems on vehicles, since this matter relies on the competence of the Contracting Party of Country where the vehicle is registered. 1.4. This Regulation applies to retrofit systems intended to be fitted on vehicles of categories M and N. The requirements for the different categories (M1, N1 or others) are defined in paragraphs 2 to 7. The modified vehicle shall still conform to all the provisions of the Regulation for which the type approval had been initially granted. 1.5. Safety requirements of this Regulation apply to all vehicles approved
G/TBT/N/ARE/8	21/05/07	United Arab Emirates - Components of the natural gas fuel stations This guideline applies to the planning, construction, equipment, installation, inspection, commissioning and use of NGV fueling stations and their components, using Natural Gas (CNG = Compressed Natural Gas) from the pipework of the public gas supply to compress it and dispense it into gas cylinders as a fuel for the propulsion and operation of a vehicle. The scope comprises the whole installation, from the main shut-off device of the NGV fueling station (appendix 1) to the fueling nozzle inclusive of the operating sites
G/TBT/N/ARE/9	21/05/07	United Arab Emirates - Motor Vehicles This guideline applies to the equipment, testing and operation of motor vehicles that are fitted out in such a way that operation with Compressed Natural Gas (CNG) is possible. Compliance with this guideline means compliance with the Road Traffic Licensing Regulations.

G/TBT/N/GRD/12	24/05/07	Grenada - Hollow concrete blocks This standard applies to hollow pre-cast concrete blocks made from a mixture of Portland cement, water and suitable aggregates and intended for use in loadbearing and non-loadbearing masonry walls of buildings.
G/TBT/N/GRD/13	24/05/07	Grenada - Hotels, apartments, guesthouses and villas This National Grenadian Standard sets out the procedures by which hotels, apartments, guesthouses and villas are to be assessed and licensed and also lays down the minimum requirements essential for proper upkeep of accommodation facilities.
G/TBT/N/ISR/175	25/05/07	Israel - Primary batteries The amendment concerns marking requirements
G/TBT/N/ISR/176	25/05/07	Israel - Rectifiers, Converters, Stabilized power supply The standard will replace the existing mandatory standard SI 2146 part 4. In alignment with international standardisation, the revision draft is identical, with slight changes and deviations, to the international standard IEC 62040-1-1 Edition 1:2002. This proposal establishes a new requirements concerning following contents: general conditions for tests, marking and instructions, power outlets, emergency switching device, means of connection and connection of non-linear reference load.
G/TBT/N/ISR/177	25/05/07	Israel - Electrical accessories The standard will replace the existing mandatory standard SI 33. In alignment with international standardisation, the standard is identical, with slight changes and deviations, to the international standard IEC 60669-1 - Edition 3.2: 2007-01. This standard concerns switches for household for a voltage not exceeding 440 V. The notified draft adds to the switches level protection IPX2 and lays down to them a new dimensions
G/TBT/N/ISR/178	25/05/07	Israel - Electrical accessories The standard will replace the existing mandatory standard SI 832 part 1. In alignment with international standardisation, the revision draft is identical, with slight changes and deviations, to the international standard IEC 61008-1 Edition 2.1: 2002-10, Amd. 2: 2006-04. This standard concerns circuit-breaker for a voltage not exceeding 440 V. The notified draft stipulates that there is a strict ban in Israel for using: a. an adjustable residual current operated circuit-breakers; b. a circuit-breakers operated by any electrical supply source, as batteries and accumulators; c. a circuit-breakers type AC.
G/TBT/N/ISR/174	01/05/07	Israel - Azúcar y productos edulcorantes The revision is based on Europe Directive - Council Directive 2001/111/EC as well as on CODEX STAN 212-1999 (Amd. 1-2001), Codex Alimentarius Commission. The new standard does not constrain a packing limitation to 10g and refers to the food additives technical regulation concerning allowed additives. The standard updates the requirements concerning test methods, adds the microbiological requirements and general counting tests of yeast and moulds, specifies microbe's tests regarding the non-acid juice making industry and conserves and restricts the requirements of the metal contents.
G/TBT/N/JOR/3/Add.1	10/05/07	Jordan - Ceramic Tiles - Addendum The date for comments for Notification G/TBT/N/JOR/3 dated 8 March 2007 has been extended until 31 May 2007
G/TBT/N/JPN/209	31/05/07	Japan - Prepared frozen foods Draft amendment of the Quality Labelling Standard for Prepared Frozen Foods. To provide consumers with information for informed choices, the Quality Labelling Standard of Prepared Frozen Foods will be amended as follows: a) To modify the definition of prepared frozen foods so as to be consistent with the relevant Japanese Agricultural Standard; b) To label frozen fries in a more understandable way with generic names; and c) To revise the prohibited labelling term of frozen croquette from "cream" to "cream

G/TBT/N/*	SDD	MIEMBRO/PRODUCTO
		croquette" and also revise the qualification for carrying the term.
G/TBT/N/JPN/200	29/05/07	Japan - Motor vehicles, motorcycles, and exhaust mufflers
G/TBT/N/JPN/201	29/05/07	Japan - Motor vehicles Introduce Particulate Matter (PM) testing using opacimeter into the inspection and the type approval of diesel-fuelled vehicles.
G/TBT/N/JPN/202	29/05/07	Japan - Electric shredders and electric room heaters 1. Household paper shredders ("Electric shredders" as the name of the relevant law). Because of serious accidents involving young children associated with household paper shredders, relevant technical requirement will be amended as to the following: - Requirements on marking; - Operational limitation on safety interlock; - Requirement of switch disconnecting the power from the supply mains; - Requirement of the test on hazardous moving parts with the accessibility probe. 2. Electric heaters with controls actuated by remote operation ("Electric room heaters" as the name of the relevant law).Several incidents have been reported associated with electric heaters with controls actuated by remote operation which are malfunctioned by the other products' remote operation. Since malfunctioned electric heaters have high probability to cause the residential fire, relevant technical requirement will be amended as to the following: - Prohibition of controls actuated by remote operation(except for heaters with certain construction such as those mounting at high level).
G/TBT/N/JPN/203	29/05/07	Japan - Containers/Packages for Retort Pouch Foods The internal pressure strength test will be established as an additional strength test, and a requirement will be added to specifications for containers and packages for retort pouch foods.
G/TBT/N/JPN/204	29/05/07	Japan - Apparatus and containers/packages for foods made of polylactic acid resins Individual specifications will be newly established for the new category "PLA resin apparatus and containers/packages". Also, some manufacturing requirements for them will be established.
G/TBT/N/JPN/205	29/05/07	Japan - 1,3-Butadiene, Formaldehyde, Diethyl sulfate and their containing preparations, etc. The Government of Japan is going to impose necessary measures such as installation of sealing systems in the manufacture or handling of the covered products to prevent health impairment of workers on employers.
G/TBT/N/JPN/206	29/05/07	Japan - Containers and packages for normal milk and other certain milk products Establishment of Specifications and Standards for Containers and Packages for Cow's Milk and Milk Products made of Polyethylene Telephthalate Resin.
G/TBT/N/JPN/207	29/05/07	Japan - Genetically modified foods : high lysine corn and processed foods containing it as the main ingredient Draft amendment of the Quality Labelling Standard for Genetically Modified Foods. To add high lysine corn and processed foods containing it as the main ingredient to the list of items subject to labelling in the Quality Labelling Standard for Genetically Modified Foods.
G/TBT/N/JPN/208	29/05/07	Japan - Processed foods (green tea beverage and fried peanut) Draft Amendment of the Quality Labelling Standard for Processed Foods . To include "green tea beverage" and "fried peanut" in the food categories subject to place of origin labelling of ingredients in the Quality Labelling Standard for Processed Foods.
G/TBT/N/JPN/199	16/05/07	Japan - Poisonous or deleterious substance: 1-Dodecylguanidinium acetate, O-ethyl S-propyl [(2E)-2[...],e, 3- (Aminomethyl)benzylamine
G/TBT/N/KEN/14/Add.2	04/05/07	Kenya - Todos los productos usados; alimentos y productos agropecuarios; productos químicos; text[...]/productos mecánicos - Addendum Se ha revisado la lista de los productos sujetos a la verificación previa a la exportación de la conformidad con el programa normativo. La lista revisada de los productos abarcados por el programa mencionado está disponible para su consulta en los siguientes sitios Web: www.kenyapvoc.com; www.kebs.org
G/TBT/N/KOR/139	29/05/07	Korea - Agricultural products : genetically modified organisms Proposed Amendment of Labelling Standard for Genetically Modified Organisms (GMO) In accordance with the recent amendment* to the Presidential Ordinance of Agricultural Products Quality Management Act(APQMA), MAF is modifying the current MAF Notice on GMO labelling by deleting relevant provisions in which item names of agricultural products subject to GMO labelling are listed. In addition, the proposed Notice is modified so as to be applied to the Sprout of GMO as the Presidential Ordinance of APQMA states that the sprout is subject to GMO labelling same as other GMO. *Please refer to the G/TBT/N/KOR/135 on amendment of the Presidential Ordinance of APQMA.
G/TBT/N/KOR/138	25/05/07	Korea - Electrical/Electronic Products, Automobiles - Prescribe restrictions on the use of hazardous substances and requirements for improvement in material/structure aspect related matters; and - Incorporate the Extended Producer Responsibility (EPR) for electrical/electronic products under the Act on the Promotion of Saving and Recycling of Resources into this Act; and - Allow the Government to impose/collect Recycling Dues from manufacturers/importers or owners of automobiles

G/TBT/N/*	SDD	MIEMBRO/PRODUCTO
G/TBT/N/KOR/137	25/05/07	Korea - Lifts (Elevators; Escalators) Safety criteria replacing current criteria should be applied on newly installed lifts, and some specific criteria should be applied on existing lifts. - Lift Key: The shape of the Key should have a shape of an unlocking triangle, - Door Strength: The strength of the lift door should have at least 450J(Joule) impact energy; - Speed Differences: The speed difference of escalator between step and handrail should be within 2%. The distance difference between step and handrail should be under 0.5m (meter); - Door Interlock: Mechanical locking system should precede the electrical locking system when the door is closing. When it is opening, mechanical and electrical locking systems should work in reverse sequence, etc.
G/TBT/N/KOR/105/Add.1	16/05/07	Korea - Electrical/Electronic Products, Automobiles - Addendum The Ministry of Environment of the Republic of Korea informs that ME Public Notice No. 2005-276 of 30 December 2005 has been confirmed as the Law No. 8405 (titled the Act for Resource Recycling of Electrical/Electronic Products and Automobiles).
G/TBT/N/MYS/8	10/05/07	Malaysia - Veterinary medicinal products The proposal describes the implementation of the CDCR on veterinary medicinal products and the data requirements to be submitted, and the proposal for the implementation in order not to disrupt supplies of the products. It is applicable to all products, locally manufactured or imported.
G/TBT/N/NLD/75	24/05/07	The Netherlands - Clothing
G/TBT/N/PAN/37	24/05/07	Panamá - Carne de aves Objeto y Campo de Aplicación; Normas para Consulta; Definiciones; Clasificación de los Cortes; Especificaciones y Características; Muestreo; Rotulado o Etiquetado; Almacenamiento y Transporte; Documentos de Referencia y Anexo Normativo.
G/TBT/N/ROU/26	30/05/07	Romania - Wheat flour This standard establishes the methods for the determination of physical, chemical and biological organoleptic characteristics of wheat flour.
G/TBT/N/ROU/27	30/05/07	Romania - Bread and pastry products This standard establishes the methods for the organoleptic analysis and for the determination of physical and chemical properties of bread and pastry products.
G/TBT/N/ROU/28	30/05/07	Romania - Clothes This standard specifies the concepts for human body measurement, devices and precision of the measurement, general prescriptions for size identification, definition and principle anthropometric points and measurement of dimensional characteristics.
G/TBT/N/SGP/3	16/05/07	Singapore - Environmental pollution control
G/TBT/N/SVN/54	30/05/07	Slovenia - Meat of slaughtered animals and game Rules prescribing the methods of handling the carcasses of slaughtered animals and game, the cutting of carcasses to basic cuts, the sorting of meat of slaughtered animals and game into quality categories and labelling of quality categories.
G/TBT/N/THA/230	10/05/07	Thailand - Radiocommunication equipment This standard specifies the minimum technical requirements for optical communication systems for use in Thailand. It covers standards for optical communication systems, in accordance with appropriate composition e.g. structure of the optical link and network system, optical transmitter and receiver characteristics, quality of signal, safety as well as optical and electrical requirements.
G/TBT/N/THA/231	10/05/07	Thailand - Radiocommunication equipment This standard specifies electromagnetic compatibility (EMC) requirements for certain types of telecommunication terminal equipment (TTE) such as telephone sets, facsimile equipment, key telephone systems, modems, data terminal equipments, PABX and xDSL equipment. This equipment shall comply with TIS 1956-2548 (2005) - Information technology equipment: Radio disturbance limits or other equivalent standards.
G/TBT/N/THA/232	10/05/07	Thailand - Radiocommunication equipment This standard specifies electrical safety requirements for certain type of telecommunication terminal equipment (TTE) such as telephone sets, facsimile equipment, key telephone systems, modems, data terminal equipments, PABX and xDSL equipment. This equipment shall comply with TIS 1561-2548 (2005) - Information technology equipment safety: General requirements or other equivalent standards.
G/TBT/N/TPKM/49	24/05/07	The Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu - Consumer chemical products The Department of Commerce intends to establish labelling requirements for consumer chemical products to enhance the protection of human health. The proposed Criteria were drafted in line with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). Consumer chemical products are defined in these Criteria as chemical products and semi-products that are available on the general market. Chemical ingredients contained in commercial products that would not be released under normal use conditions are not covered by these Criteria. The contents to be labelled in the consumer chemical products include general labelling items, special labelling items, and labelling methods.

G/TBT/N/*	SDD	MIEMBRO/PRODUCTO
