| G/TBT/N/FIN/17 | 08/06/07 | Finlandia - Dispositivos o equipos láser |
| G/TBT/N/FIN/18 | 19/06/07 | Finland - All radio equipment National frequency plans for using radio equipment and systems (Regulation 4J/2007 M) for the frequency range from 9 kHz to 400 GHz, including Radio Interface Specifications in the sense of art. 4(1) of the directive 1999/5/EC and including regulation 15X/207 M defining usage of radio equipment for which individual licences are not required. |
| G/TBT/N/HUN/21 | 04/06/07 | Hungary - Construction products, fire protection products (fire alarm, fire extinguisher, fire pre[...]us equipment, machinery, tools Decree about the rules of fire services and technical requirements of establishing (construction) of build-ups and establishments, the usage of build-ups, establishments, engines, facilities, implements, and materials (except for the explosives, and about the usage of technologies). |
| G/TBT/N/ISR/179 | 12/06/07 | Israel - Building accessories The revision is identical, with small changes and deviations, to the European standard EN 1303 (12/2005). The Israeli part of the draft sets forth the safety, durability, suitability for use in fire, corrosion resistance and attack resistance requirements for the cylinders for lock; specifies different tests, such as: fire resistance tests (the implementation when the temperature is from -20 C° to + 80 C°) or durability tests; lays down test methods of the cylinders for lock and their defence measures. This standard does not concern fire resistance evaluation of the first security grade doors. There are small changes in the European standard as well, concerning normative references, requirements, classification and marking. |
| G/TBT/N/ISR/180 | 25/06/07 | Israel - Copper alloys pipe fittings Amendment 1 to the mandatory standard SI 2241 Part 1 - Copper alloy fittings for plastic pressure pipeline, for conveying cold and hot water: Compression fittings with compression sleeve The amendment deals with the minimal diameter of the water pipe |
| G/TBT/N/ISR/181 | 25/06/07 | Israel - Aluminium reinforced polyethylene pipes and joints Amendment 3 to the mandatory standard SI 2242 Part 1- Aluminium reinforced crosslinked polyethylene pipes and joints for conveying cold and hot water: Specifications. The amendment deals with the minimal diameter of the water pipe |
| G/TBT/N/ISR/182 | 25/06/07 | Israel - Adhesive tapes for electrical insulation purposes Revision of the mandatory standard SI 840 part 1 to be replaced by the SI 840 - Pressure-sensitive adhesive tapes for electrical purposes In alignment with the international standardisation, this proposed revision is the adoption, with small changes and deviations, of the European Standards IEC 454-1 (SI 840 part 1) and IEC 454-3-1 (SI 840 part 2). The new draft of the SI 840 Part 1 covers the following: normative references, appearance, packing and marking. The proposed revision of the SI 840 part 2 introduces and classifies the tapes to 12 types by the temperature conditions and thermal index. Furthermore, the new standard stipulates the additional test methods, concerning plastic erosion and fire resistance evaluation. |
| G/TBT/N/ISR/183 | 29/06/07 | Israel - Electrical accessories Revision of the mandatory standard SI 145 to be replaced by SI 145 Part 1 – Boxes and enclosures for electrical accessories for household and similar fixed electrical installations: General requirements |
| G/TBT/N/JPN/210 | 22/06/07 | Japan – Drugs |
| G/TBT/N/JPN/211 | 27/06/07 | Japan – Drugs Under the provision of Article 41 of the Pharmaceutical Affairs Law, Ministry of Health and Labour and Welfare revise the Japanese Pharmacopoeia Fifteenth edition. |

|---------------------------------------|----------|---|
| G/TBT/N/KOR/142 | 13/06/07 | <p>Korea - Household textile products, leather products, toilet paper, household tool kit[...],s, sunglasses, eyeglass frames</p> <p>- Comforters and grave clothes are included in the category of household textile products subject to labelling on packages. Labelling requirements for leather apparel are modified to comply with labelling requirements of household textile products.</p> <p>- Marking name and size of household tool kits is changed into recommendatory information.</p> <p>- Marking bridge width and material of sunglass and eyeglass frames is changed into recommendatory information. Sunglass and eyeglass frames shall bear the mark of origin, pursuant to the notice of the Korean Customs Service.</p> |
| G/TBT/N/KOR/143 | 13/06/07 | <p>Korea - Carpets, textile products (underwear, baby's clothing, bedclothes), chemical p[...],s, glue, clays and notebooks).</p> <p>- The scope of carpets subject to the safety criteria is limited to those of which area is equal to or larger than 1m2. Cushions and pads are deleted from the category of textile products which include underwear, baby's clothing, bed clothes. Terms are modified to clarify the scope of "chemical products for domestic use".</p> <p>- Marking intervals of manufacture's name under the category of soft polyvinyl chloride hoses is adjusted. The criteria for safety glass for road vehicles, high-visibility warning jackets and swimming goggles are supplemented by referring to the relevant KS.</p> <p>- Cups and containers for infant formula, which are subject to the Food Sanitation Act, will be deleted from the category of plastic kitchen ware and utensils. Classifications of toy balloons are limited to five colours.</p> <p>- Redundant tests of durability and strength of attached parts of baby carriers are deleted. The scope of mattress size is extended and the classification of mattress is more clarified by including 'palm mattress' and 'natural fiber mattress'.</p> <p>- The safety criteria for crayons and oil pastels, watercolors, markers, pencil case and clays among the category of stationery are revised as follows:</p> <p>* The oral toxicity test criteria for crayons and oil pastels will be changed to use the Toxicity Test Methods for Pharmaceuticals under the Korea Food and Drug Administration;</p> <p>* Criteria on heavy metal contents of watercolors are strengthened up to the level of criteria on mouth-contact products for children;</p> <p>* The scope of markers and test requirements of formaldehyde are clarified. Warning statement related to safety caps will be attached on the product;</p> <p>* Paper material is added to the category of pencil case;</p> <p>* Criteria on heavy metal contents of clays are strengthened up to the level of criteria on mouth-contact products of children. Restriction of using phthalates is added.</p> |
| G/TBT/N/KOR/144 | 13/06/07 | <p>Korea - Infant formula and other formula</p> <p>- Establishment of standard, less than 100CFU per one gram, for Bacillus cereus in infant formula and other formula.</p> <p>- Establishment of detection method of Bacillus cereus in infant formula and other formula.</p> |
| G/TBT/N/KOR/145 | 22/06/07 | <p>Republic of Korea – Foods</p> <p>Proposed amendment to Foods Labelling Standards</p> <p>- Providing calculation standard for "Per Serving";</p> <p>- Offering nutrition information on Trans Fatty Acids;</p> <p>- Trans Fatty Acids are marked "0 g," when less than 0.2 g per serving;</p> <p>- Improving the labeling of irradiated foods;</p> <p>- Enlarging type size for printed expiry date and adjusting where to indicate the expiry date;</p> <p>- Adding beer to the list of foods labeled "best before";</p> <p>- Adding shrimp to the list of foods causing hypersensitivity;</p> <p>- Calculating the percentage of organic ingredients out of the total ingredients including salt and water</p> |
| G/TBT/N/KOR/146 | 28/06/07 | <p>Korea - GM Foods and GM food additives</p> <p>- Reflecting amended details concerning "the extended items subject to labelling of Genetically Modified Foods (GM foods)" of the Enforcement Decree of Agricultural Products Quality Control Act of the Ministry of Agriculture and Forestry, which is the relevant regulation of this notification, on raw material items subject to labelling of GM foods;</p> <p>- Simplifying phrases by deleting overlapped explanation on GM foods;</p> <p>- Clarifying the subject of labeling by describing health functional food in the definition of terms including GM foods;</p> <p>- Including specialized marketing sales business of health functional food in the list of persons responsible for labelling.</p> |
| G/TBT/N/LTU/8 | 28/06/07 | <p>Lithuania - Construction products</p> <p>This document represents an updated draft of the technical regulation notified under G/TBT/N/LTU/7. It does not supersede the existing list of the construction products subject to regulation, but supplements it by newly adopted European harmonized standards. The proposed regulation provides technical specifications, mandatory essential requirements and conformity assessment schemes for a series of construction products, such as aggregates, binders, concrete and mortar, masonry units, thermal insulation products, concrete and reinforced concrete, windows and doors, timber structures and products, glass, roof coverings and products, floors, walls and ceilings coverings, waterproofing products, sealants, paints, geo-textiles, fire-construction, heating, water supply and ventilation devices, reinforcing steel, embedded details, steel structures, road construction products, chimneys, waste water treatment facilities, fire fighting systems, fire detection and fire alarm systems equipment, stationary fire extinction systems and their components, etc. The new draft adjusts conformity assessment schemes for the construction products for which harmonized standards are not yet available.</p> |

| G/TBT/N/PAK/23 | 06/06/07 | <p>Pakistán - Aceite para uso culinario (mezcla) La norma notificada establece las prescripciones, los métodos de obtención de muestras y de prueba relativas al aceite para uso culinario (mezcla), así como las prescripciones de etiquetado, envasado, almacenamiento y transporte.</p> |
| G/TBT/N/PAK/24 | 06/06/07 | <p>Pakistán - Aceite refinado de maíz La norma notificada establece las prescripciones, los métodos de obtención de muestras y de prueba para el aceite refinado de maíz, así como las prescripciones de etiquetado, envasado, almacenamiento y transporte</p> |
| G/TBT/N/PAK/25 | 06/06/07 | <p>Pakistán - Aceite refinado de soja La norma notificada establece las prescripciones, los métodos de obtención de muestras y de prueba para el aceite refinado de soja, así como las prescripciones de etiquetado, envasado, almacenamiento y transporte</p> |
| G/TBT/N/PAK/3 | 05/06/07 | <p>Pakistan - Tubular fluorescent lamp This standard covers a range of tubular fluorescent lamps for general lighting service which are operated on a.c. mains. Lamps of the following types are included: (i) Lamps with pre-heated cathodes operated with the use of a starter; (ii) Lamps with pre-heated cathodes operated with out the use of a starter; (iii) Lamps with pre-heated cathodes operated with or without the use of a starter; (iv) Lamps with non-pre-heated cathodes operated without the use of a starter; This standard also prescribes the general requirements, method of sampling and test</p> |
| G/TBT/N/PAK/4 | 05/06/07 | <p>Pakistan - Two wheel auto vehicles This Standard specifies the requirements for Two Wheel Auto Vehicles (Motorcycles) (i) Requirements, Marking, labelling, sampling and criteria for conformity. (ii) Covers only Motorcycles with an unladen mass of less than 400 kg, a max. designed speed exceeding 40 km per hour and cylinder capacity up to 150cc. (iii) Covers safety requirements and limitation of emission of gaseous pollutants</p> |
| G/TBT/N/PAK/5 | 05/06/07 | <p>Pakistan - Bottled drinking water This specification prescribes the requirements, methods of sampling and testing for bottled drinking water</p> |
| G/TBT/N/PAK/6 | 05/06/07 | <p>Pakistan - Ballasts for tubular This standard specifies the classification, quality characteristics, test method as well as labelling requirements.</p> |
| G/TBT/N/PAK/7 | 05/06/07 | <p>Pakistan - Sulphate resisting portland cement This standard specifies requirements for the composition, manufacture, chemical and physical properties certification by the manufacturer, independent testing and marking of sulphate resisting Portland cement</p> |
| G/TBT/N/PAK/8 | 05/06/07 | <p>Pakistan - Edible sesame seed oil This standard applies to edible sesame Seed Oil but does not apply to sesame seed oil which must be subject to further processing in order to render it suitable for human consumption. This standard also specifies the general requirements, method of sampling and testing, and also specifies the requirements on labelling, packaging, storage and transport.</p> |
| G/TBT/N/PAK/9 | 05/06/07 | <p>Pakistan - Refined Coconut Oil This standard prescribes the requirement, method of sampling and test for Refined Coconut oil as well as requirements on labelling, packaging, storage and transport.</p> |
| G/TBT/N/QAT/17 | 29/06/07 | <p>Qatar - Household insecticide The requirements, labelling and marking of household insecticide which is packaged in hand pressurized aerosol dispensers for indoor use against insects.</p> |
| G/TBT/N/SVK/8/Add.1 | 04/06/07 | <p>Slovak Republic - Selected construction products - Addendum Act No. .../2005 Coll. amending Act No. 90/1998 Coll. on Construction Products as amended and Act No. 455/1991 Coll. on Trades (The Trades Licensing Act) as amended. Notice is hereby given that the text of the Act on construction products notified as part (1) of the G/TBT/N/SVK/8 is withdrawn and will be replaced by text submitted to the WTO Secretariat under new notification.</p> |
| G/TBT/N/SVK/9 | 04/06/07 | <p>Slovak Republic - Selected construction products This draft Act adopts those articles of Council Directive 89/106/EEC which relate to construction products for which no harmonized technical specifications in the sense of the Directive have yet been issued. The document specifies transposition of the Directive at a national level.</p> |
| G/TBT/N/SVN/55 | 01/06/07 | <p>Slovenia - Waxes, bituminous materials and other petroleum products This national standard defines national requirements which supplement the European standard and which are not in conflict with the requirements in the European standard. The national standard contains clearly-defined criteria for the essential characteristics of materials with regard to climate conditions in our country.</p> |
