G/TBT/N/CHN/400	China - Rice This standard specifies the relevant terms and definitions, classifications, quality requirements, test methods, inspection rules and requirements of packaging, labels, storage and transportation of the rice. This standard applies to commercial edible rice. It does not apply to special rice, special use rice and other special variety rice	03/07/08
G/TBT/N/CHN/401	China - Paddy This standard specifies the relevant terms and definitions, classifications, quality requirements, test methods, inspection rules and requirements of labels and marks, packaging, storage and transportation of the paddy. This standard applies to the procurement, storage, transportation, processing and marketing of the commercial paddy. It does not apply to special variety paddy which does not conform with the classifications of this standard.	03/07/08
G/TBT/N/CHN/402	China - Soybean This standard specifies the relevant terms and definitions, classifications, quality requirements, test methods, and requirements of labels, packaging, transportation and storage of the soybean. This standard applies to the test, evaluation and identification of the quality of commercial soybean	03/07/08
G/TBT/N/CHN/403	China - Corn This standard specifies the relevant terms and definitions, classifications, quality requirements, test methods, inspection rules and requirements of labels and marks, packaging, storage and transportation of the corn. This standard applies to the procurement, storage, transportation, processing and marketing of the commercial corn. It does not apply to special variety corn which does not conform with the classifications of this standard.	03/07/08
G/TBT/N/CHN/404	China - Palm oil This standard specifies the relevant terms and definitions, classifications, technical quality requirements, test methods, inspection rules and requirements of labels, packaging, storage and transportation of the palm oil. This standard applies to palm oil and crude oil and product oil of palm olein, palm superolein, palm stearin derived from palm oil.	03/07/08
G/TBT/N/CHN/405	China - Olive oil and olive pomace oil (See G/TBT/N/CHN/405 /Suppl.1)	03/07/08
G/TBT/N/CHN/405 /Suppl.1	China - Olive oil and olive pomace oil- Suplemento - Traducción	31/07/08
G/TBT/N/CHN/406	China - Beer This standard specifies the terms and definitions, product classifications, requirements, analysis methods and inspection rules, markings, packaging, transportation and storage of the beer. It applies to the production, inspection and sale of the beer.	03/07/08

G/TBT/N/*	Miembro/Producto	SDD
G/TBT/N/CHN/407	China - Seamless steel tubes and pipes for high pressure boiler This standard specifies the classifications, code names, dimensions, shapes, weights, technical requirements, samples, test methods, inspection rules, packaging, markings and quality certifications for the seamless steel tubes and pipes for high pressure boiler.	03/07/08
G/TBT/N/CHN/408	China - Seamless steel tubes for low and medium pressure boiler This standard specifies the ordering contents, dimensions, shapes, weights, technical requirements, test methods, inspection rules, packaging, markings and quality certifications of the seamless steel tubes for low and medium pressure boiler. This standard applies to the seamless tubes of quality carbon structural steels for low and medium pressure boiler	03/07/08
G/TBT/N/CHN/409	China - Hot-rolled sheets and strips of carbon structural steels and high strength low alloy structural steels This standard specifies the ordering contents, deminsions, shapes, weights and tolerances, technical requirements, test motheds, inspection rules, packaging, markings and quality certifications etc. of the hot-rolled sheets and strips of carbon structural steels and high strength low alloy structural steels. This standard applies to hot-rolled sheets and strips of carbon structural steels and high strength low alloy structural steels with thickness of less than 3mm.	03/07/08
G/TBT/N/CHN/409/Suppl.1	China - Chapas y tiras, laminadas en caliente, de aceros estructurales al carbono y aceros estruc[...] de la Secretaría – Suplemento	23/07/08
G/TBT/N/CHN/410	China - Pure helium and high purity helium and ultra pure helium This standard specifies the technical requirements, test methods, inspection rules of liquid and gaseous helium, as well as the packages, labels, storage, transportation, etc. of the products.	03/07/08
G/TBT/N/CHN/411	China - Atactic polypropylene (APP) modified bituminous sheet materials	03/07/08
G/TBT/N/CHN/412	China - Styrene butadiene styrene (SBS) modified bituminous sheet materials This standard specifies the technical requirements, test methods, inspection rules of styrene butadiene styrene (SBS) modified bituminous sheet materials. The Mandatory contents include the performance of materials and markings.	03/07/08
G/TBT/N/CHN/413	China - Injection molding machines for processing plastics and/or rubber This standard specifies the safety requirements for injection molding machines. It involves: terms and definitions, list of significant hazards, safety requirements and/or measures, verification of the safety requirements and/or measures, and information for use. This standard applies to the injection molding machines for processing rubber and plastics	03/07/08
G/TBT/N/CHN/414	China - Numerical controlled (NC) boring machines and routing machines This standard specifies the safety requirements and inspection methods for numerical controlled (NC) boring machines and routing machines	03/07/08
G/TBT/N/CHN/415	China - Belt-drive wheeled tractors This standard specifies the safety requirements and test methods for belt-drive wheeled tractors.	15/07/08
G/TBT/N/CHN/416	China - Automatic electric rice cookers This standard specifies the minimum allowable values of energy efficiency, energy efficiency grades, evaluating values of energy conservation, maximum energy consumption in standby mode, maximum energy consumption for keeping warm, test method and inspection rules for automatic electric rice cookers.	15/07/08
G/TBT/N/CHN/417	China - AC electric fans This standard specifies the energy efficiency grades, minimum allowable values of energy efficiency, evaluating values of energy conservation, test method and inspection rules for AC electric fans. This standard covers the desk fan, rotated-blade fan, wall fan, desk-floor fan, stand fan and ceiling fan driven by AC electric motor, with rated single-phase voltage no more than 250V, other rated voltage no more than 480V.	15/07/08

G/TBT/N/*	Miembro/Producto	SDD
G/TBT/N/CHN/418	China - Resistance welding machines This standard specifies the general safety requirements and testing methods of the resistance welding machines, including the performance of insulation, protection against electric shock in normal service and in a fault condition, thermal requirements, protection against mechanical hazards, requirements for air system and liquid system and etc.	15/07/08
G/TBT/N/CHN/419	China - Plugs and socket-outlets for household and similar purposes This standard specifies the general requirements for plugs and socket-outlets for household and similar purposes. This standard applies to plugs and fixed or portable socket-outlets with or without earthing contact for household use and similar purposes, used indoors or outdoors, for a.c. only, with a rated voltage above 50V and not exceeding 440V and a rated current not exceeding 32A.	15/07/08
G/TBT/N/CHN/420	China - Three phases plugs and socket-outlets for household and similar purposes This standard specifies the types, basic parameters and dimensions for three phases plugs and socket-outlets for household and similar purposes. This standard applies to three phases plugs and fixed or portable socket-outlets for a.c. 50Hz only, with rated voltage of 440V and rated current not exceeding 32A, intended for household and similar purposes.	15/07/08
G/TBT/N/CHN/421	China - Single phase plugs and socket-outlets for household and similar purposes This standard specifies the types, basic parameters and dimensions for single phase plugs and socket-outlets for household and similar purposes. This standard applies to single phase plugs and fixed or portable socket-outlets for a.c. 50Hz only, with a rated voltage of 250V and a rated current not exceeding 16A, intended for household and similar purposes.	15/07/08
G/TBT/N/CHN/422	China - Electrical installations of buildings This standard specifies the types and safety technical requirements of system earthing which nominal voltage of electricity supply system is 220/380V a.c. The main contents cover the terms and definitions, types and safety technical requirements of system earthing.	15/07/08
G/TBT/N/CHN/423	China - Measuring relays and protection equipment This Standard specifies the product safety requirements for measuring relays and protection equipment with rated a.c. voltage up to 1000 V and rated frequency up to 65 Hz, or rated d.c. voltage up to 1500 V.	15/07/08
G/TBT/N/CHN/424	China - Buried polyethylene (PE) valves for supplying gaseous fuels This standard specifies the definitions, materials, general requirements, geometry dimensions, mechanical performance, physical characteristics, test methods, inspection rules, marks and labels, and packaging , transportation and storage for buried polyethylene (PE) valves for supplying gaseous fuels.	15/07/08
G/TBT/N/CHN/425	China - Screw caps, pin lamp caps, prefocus caps, miscellaneous caps and bayonet caps on finished lamps This standard specifies the safety requirements, test methods, inspection rules, markings, packaging, transportation and storage for various metal, ceramic and plastic lamp caps.	15/07/08
G/TBT/N/CHN/426	China - Household and similar electrical appliances This standard specifies the scope, normative references, basic principles, contents, labelling requirements and forms of instructions, basic requirements for making instructions and durability of them. This standard applies to making instructions for household and similar electrical appliances.	15/07/08
G/TBT/N/CHN/427	China - Textiles and apparel This standard specifies the scope, normative references, terms and definitions, basic principles, labelling contents, forms and positions of the instructions etc. for textiles and apparel. This standard applies to the instructions for all kinds of textiles and apparel.	15/07/08
G/TBT/N/CHN/428	China - Toys This Measure specifies the inspection and supervision administrative measure on quality and safety of import and export toys.	15/07/08

G/TBT/N/ISR/183/Rev.1	Israel - Electrical accessories - Revision Revision of Mandatory Standard 145, to be replaced by SI 145 Part 1. This Mandatory Standard adopts the European Standard published by the International Electrotechnical Commission, IEC 60670-1:2002, with few changes which are detailed in the Hebrew section and refer to the scope of the standard, the references to local standards, as well as to the following technical aspects: definitions, general requirements, marking, general notes on test, marking, dimensions, construction and resistance of insulation material to abnormal heat and fire. The draft text of the revised standard was changed since the original notification G/TBT/N/ISR/183, due to local comments accepted by the technical committee formulating the standard.	24/07/08
G/TBT/N/ISR/212	Israel - Personal flotation devices Revision of Mandatory Standard SI 1905: SI 12402 part 1 - Personal flotation devices: Lifejackets for seagoing ships - Safety requirements; SI 12402 part 7 - Personal flotation devices: Materials and components - Safety requirements and test methods; SI 12402 part 8 - Personal flotation devices: Accessories - Safety requirements and test methods; SI 12402 part 9 - Personal flotation devices: Test methods	11/07/08
G/TBT/N/ISR/213	Israel - Playpens for domestic use Revision of Mandatory Standard SI 1905 SI 681 part 1 - Playpens for domestic use: Safety requirements; SI 681 part 2 - Playpens for domestic use: Test methods; SI 681 part 3 - Playpens for domestic use: Playpen carriages - Safety requirements and test methods	11/07/08
G/TBT/N/ISR/214	Israel - Plastic conduit systems for electric and communication installations in buildings Revision of Mandatory Standards SI 728, SI 1280 and SI 61386 Part 21, to be replaced by SI 61386 Part 21. This Mandatory Standard adopts the European Standard published by the International Electrotechnical Commission, IEC 61386-21 First edition: 2002-02, with few changes which are detailed in the Hebrew section and refer to the scope of the standard, the references to local standards, as well as to the following technical aspects: general conditions for tests, classification, marking and documentation.	22/07/08
G/TBT/N/ISR/215	Israel - Power cables Revision of Mandatory Standard SI 1516 Part 1. This part of the standard adopts the European Standard published by the International Electrotechnical Commission, IEC 60502-1 Edition 2.0 2004-04, with few changes which are detailed in the Hebrew section and refer to the scope of the standard, the references to local standards, as well as to the following technical aspects: insulation thickness, identification of the cables (colours and marking), assembly of multicore cables, inner coverings and fillers, metallic armour, oversheath, sample tests, type tests (non-electrical) and fire tests.	22/07/08
G/TBT/N/JOR/5	Jordan - Electrical equipment Safety Instructions for electrical equipment designed for use within certain voltage limits	10/07/08
G/TBT/N/JOR/6	Jordan - Toys This Jordanian Instruction applies to toys, defined as "any product or material designed or clearly intended for use in play by children of less than 14 years of age". The instructions lays down the safety criteria or "essential requirements" which toys must meet to be placed on the market. The safety criteria cover general risks (protection against health	10/07/08

G/TBT/N/*	Miembro/Producto	SDD
	hazards or physical injury) and particular risks (physical and mechanical, flammability, chemical properties, electrical properties, hygiene and radioactivity). The degree of risk has to take into account the ability of the user (children). If applicable, the toy must contain a labelling that specifies a minimum age.	
G/TBT/N/JPN/262	Japan - Drugs Under the provision of Article 41 of the Pharmaceutical Affairs Law, Ministry of Health, Labour and Welfare revises the Japanese Pharmacopoeia Fifteenth edition (Monograph of Heparin Sodium).	18/07/08
G/TBT/N/KGZ/10	Kyrgyz Republic - Safety of ground vehicles Action of the present technical rules extends to all carried out within the limits of the territory of the Kyrgyz Republic processes on operation, storage, transportation, realization and recycling of vehicles and their components and establishes minimal requirements on the safety of ground vehicles.	23/07/08
G/TBT/N/KOR/177/Rev.1	Republic of Korea - Organic processed food – Revision (See G/TBT/N/KOR/177/Suppl.1) As a result of legislation review (Ministry of Government Legislation), the whole article regarding certification of imported Organic Processed Food we had notified to the WTO was deleted (G/ TBT/N/KOR/177). Because there is no reason to distinguish local organic processed food from imported organic processed food, domestic and imported organic processed food will be subject to same law for their certification.	07/07/08

G/TBT/N/KOR/178	Republic of Korea - Audio, video and similar electronic apparatus As for K 60065 [Audio, video and similar electronic apparatus], clause 5.1 h) will be amended as follows: - Rated power consumption of apparatus which can be supplied by supply apparatus for general use shall be indicated. The measured consumption at rated supply voltage shall not exceed the marked value by more than 10 %. The following contents will be added to clause 5.1 j): Rated power consumption for apparatus intended for connection to an a.c. MAINS supply shall be indicated. However, for d.c supply apparatus, Rated current consumption or Rated power consumption may be indicated. The measured consumption at rated supply voltage shall not exceed the marked value by more than 10 %. As for K 60065 (Edition 7) [Audio, video and similar electronic apparatus], clause 5.1 g) will be amended as follows: Rated power consumption of apparatus which can be supplied by supply apparatus for general use shall be indicated. The clause 5.1 i) will be amended as follows: - Rated power consumption for apparatus intended for connection to an a.c. MAINS supply shall be indicated. However, for d.c supply apparatus, Rated current consumption or Rated power consumption may be indicated.	10/07/08
G/TBT/N/KOR/179	Republic of Korea - Bananas, Oranges, Durians (See G/TBT/N/KOR/179/Suppl.1)	10/07/08
G/TBT/N/KOR/179/Suppl.1	Republic of Korea - Bananas, Oranges, Durians– Suplemento Traducción	31/07/08
G/TBT/N/KOR/180	Republic of Korea - Pharmaceuticals - Government-subsidized essential drugs and other low-cost medicines worth 50 Korean won or less will be exempted from the requirement of supplying small package products on concerns over a possible halt in production due to costs added by small package production; - Supply of pharmaceutical products in small packages will be calculated as including stocks of already produced items. The current regulatory requirement puts a burden on pharmaceutical manufacturers or importers of providing a certain volume of small package items than necessary to pharmacies and hospitals; - Information on the names and output of small package items, wholesaler names, etc. will be made available to the relevant authorities with a view to preventing unreasonable stocks and to facilitating distribution.	18/07/08
