G/TBT/N/CHE/50	31/08/05	Switzerland - Measuring instruments The eight ordinances on different types of measuring instruments harmonize the Swiss legislation with the new EC Directive 2004/22/EC on measuring instruments (MID). They fulfil the specific essential requirements and the corresponding conformity assessments for measuring instruments and systems subject to legal metrological control. They regulate the placing on the market, putting into use and the procedures for the post-market preservation of the metrological properties of the measuring instruments. These eight ordinances correspond to the instrument-specific annexes of the MID.

G/TBT/N/SWE/57	25/08/05	Sweden - Ships which carry packaged irradiated nuclear fuel, plutonium and high-level radioactive wastes on board The regulations (INF Code) shall be applied to all ships in Swedish territorial waters and Swedish ships in foreign territorial waters. The demand for a special cargo securing manual will apply to all ships, not only ro-ro vessels, and consideration will have to be taken to all the forces, both transversal and longitudinal. Some references to other regulations have been updated.
G/TBT/N/THA/176	25/08/05	Thailand - Domestic refrigerating appliances The Thai Industrial Standards Institute (TISI) has proposed to enforce TIS 2214-2548 (2005) as a mandatory standard. The standard specifies safety requirements and testing methods of refrigerators for households, their rated voltage being not more than 250 V for single-phase appliances and 480 V for other appliances. This standard deals with the common hazards presented by motor-compressors used in appliances which are encountered by all persons in and around the home. However, it does not in general take into account: - the use of appliances by young children or infirm persons without supervision; - playing with the appliances by young children.

G/TBT/N/ISR/114	23/08/05	Israel - Glass containers The amendment concerns the definition of jars and vertical load testing conditions.
G/TBT/N/ISR/115	23/08/05	Israel - Plastic pipes This standard will replace official standards SI 576 and SI 577. The standard is the adoption of the international standard ISO 3633, with slight changes and deviations: dimensions of pipes as locally used, and ban of cement connection of fittings since this requires an expertise not commonly found in Israel.
G/TBT/N/ISR/112	22/08/05	Israel - High visibility warning clothing
G/TBT/N/ISR/113	22/08/05	Israel - Textile floor coverings This amendment concerns cleaning methods of the products before flammability testing
G/TBT/N/KEN/15	22/08/05	Kenya - General writing pencils, carpenter's pencils, drawing pencils, stenographer's pencils Specifies grades of pencils based on hardness, blackness, strength friction and wear of slip. The standard was first published in 1996 and has been revised to include the diameter requirement for HB grade of pencils. Whereas the 1 st edition specified this grade of pencil, the diameter was not specified. This has since been specified at 1.90 – 2.35 mm. This edition also specifies the limits of soluble toxic elements found on the wood casing. Also changed were grades of HB pencils. It has only one grade with different blackness index depending on the use of the pencil, unlike the previous edition that had two grades.
