JPN/361	11/08/11	10/10/11	Materials and cramps of steel pipe scaffoldings	Japan - Materials and cramps of steel pipe scaffoldings Amendment to the "Construction Standards on Materials and Cramps of Steel Pipe Scaffoldings". In order to improve assembly and workers' safety in assembly operations, various kinds of materials and cramps for steel pipe scaffoldings have been developed in recent years. Since most of newly introduced materials and cramps do not comply with the active construction standards, they need to pass individual administrative reviews to be authorized to use. Now, in order to correspond to the technological progress and to simplify the administrative procedures for the exclusion from the application of the construction standards, the "Construction Standards on Materials and Cramps of Steel Pipe Scaffoldings" is to be amended.
