G/TBT/N/ISR/242	Israel - Gully and manhole tops This first amendment to the Mandatory Standard SI 489 dealing with gully and manhole tops, changes the normative references of the standard, the marking of the product and the scope of quality control requirements.	31/10/08
G/TBT/N/JPN/270	Japan - Plastic manufactured goods : hot-water bottle from non-rigid plastic, electric appliances ; air conditioners	02/10/08
G/TBT/N/JPN/271	Japan - Radio equipment Technical regulations on radio equipment for the advanced digital satellite broadcasting system.	31/10/08
G/TBT/N/JPN/272	Japan - Soy Sauce (Shoyu) The Quality Labelling Standards for Soy Sauce (Shoyu) will be amended as follows: - In order to label "low salt soy Sauce", approval for labelling as Food for Special Dietary Uses based on the Health Promotion Law (herein after referred to as the Law) will not be required; instead, such labelling will be	31/10/08

G/TBT/N/*	Miembro/Producto	SDD
	required to be made in accordance with the Nutrition Labelling Standard under the Law.	
G/TBT/N/KEN/124	Kenya - Tobacco products The purpose of this Act is to provide a legal framework for the control of the production, manufacture, sale, labelling, advertising, promotion, sponsorship and use of tobacco products, including exposure to tobacco smoke.	30/10/08
G/TBT/N/KEN/125	Kenya - Milk and Milk products This Order provides some protective measures against consumer safety by stopping the importation of Milk and Milk products from the People's Republic of China (PRC).	30/10/08
G/TBT/N/KEN/126	Kenya - Edible fats Specifies requirements and references methods of test for edible fats derived from animal origin as well as edible oils derived from marine origin made fit for human consumption. The standard will apply to all edible animal fats and oils except where a specific Kenya standard addresses a specific fat or oil. This standard therefore cancels and replaces parts 2 and 3 of KS 326 – 1—6:2003. The standard does not apply to butter and milk fat products.	30/10/08
G/TBT/N/KEN/127	Kenya - Edible fats Specifies the requirements for fortified and non-fortified edible fats and oils including shortening from botanical origins made fit for human consumption. This standard will apply to all edible botanical fats and oils except where a specific Kenya standard addresses a specific fat or oil. This standard therefore cancels and replaces the part 1 and 2 of the second and third edition of KS 326 respectively.	30/10/08
G/TBT/N/KEN/128	Kenya - Edible fats Specifies requirements and references methods of test for edible ghee derived from either animal or botanical source or a blend of both. This standard therefore cancels and replaces parts 5 and 6 of KS 326 – 1—6: 2003.	30/10/08
G/TBT/N/KEN/129	Kenya - Legal Axle Limit Traffic (Amendment) rules by the Minister for giving Limits of Dimensions, Axle Load and Masses for Road Vehicles	30/10/08
G/TBT/N/KGZ/11	Kyrgyz Republic - Food raw materials and foodstuffs This draft law defines technical regulations for ensuring food safety in the Kyrgyz Republic. Its objectives are to protect human life and health, animals, plants and the environment, during the production and handling of raw foods and processed food products. It is also designed to prevent the misleading of consumers.	02/10/08
G/TBT/N/KOR/187	The Republic of Korea - Lift (Elevator); escalator Safety criteria replacing current criteria should be applied on newly installed lift: - Use of glass is newly permitted in emergency lift, only when the glass is fire-resisting material approved by 3 rd party conformity assessment body; - The criteria for dimension and shape of lift well are abolished; - The criteria for installation of garden and handrail for preventing unauthorized person from entering into pit is abolished; - Permitting various rope fixation method, only when the roping method is approved by 3 rd party conformity assessment body, etc.	03/10/08
G/TBT/N/KOR/188	Korea - GM foods and GM food additives (in English)	15/10/08
G/TBT/N/KOR/189	Republic of Korea - Medical Devices The proposed regulation specifies standards and procedures for designating humanitarian use medical devices, and establishes requirements for such medical devices	20/10/08

G/TBT/N/KOR/191	Republic of Korea - Television Reporting of standby power usage of products and labelling a simple message: "this product does not meet the standby power requirement" on products which fail to meet the standby power standards became mandatory. After taking the preliminary step of implementing new regulation for televisions from 28 August 2008, the MKE plans to extend its scope to computers, monitors, printers, multi-function devices, set-top boxes and microwave ovens as of 1 July 2009.	21/10/08
G/TBT/N/KOR/192	Republic of Korea – Foods –((in Korean)	21/10/08
G/TBT/N/KOR/193	Republic of Korea – Batteries The safety criterion on lithium-ion batteries is introduced in the safety criterion on batteries which are previously subject to the Self-Regulatory Product Safety Confirmation system. - The safety criterion on lithium-ion batteries is adopted by referring the relevant parts of IEC 62133 and the testing conditions of external short circuit, thermal abuse, and crushing of cells are strengthened; - The batteries expected to be exposed to a high temperature, such as the batteries of navigation devices built in vehicles shall be tested for 7 hours at the temperature of 90°C. The environmental tests are introduced in the safety criterion on the digital door lock. The hinge strength test for a folding bike and the mechanical impact test for a body of semi-mountain bike are introduced in the safety criterion on bicycles. Items subject to the Self-Regulatory Safety Confirmation system are required to confirm their safety prior to delivery of goods to the market or customs clearance by reporting to certification body with test and inspection result conducted by designated testing and inspection laboratories.	31/10/08
