KOR/536	13/11/2014	12/01/2015	Veterinary quasi-drugs	Republic of Korea - Veterinary quasi-drugs (in Korean) Proposed Amendments to the Regulation on the Classification and Designation of Veterinary Quasi Drugs (Public Notice No. 2013-291) The proposed revisions mainly focus on the following: Amendment of Classification of Veterinary Quasi-Drugs with the Exception of Solid Soap.																	
KOR/537	14/11/2014	13/01/2015	Labelling standards for foods	Republic of Korea - Labelling standards for foods (in Korean) Proposed Revision of the Labelling Standards for Foods (MFDS Notice No. 2014-340) The Ministry of Food and Drug Safety (MFDS) will partly amend "Labelling Standards for Foods" in order to clarify existing provisions on the labelling methods of ingredients including the following:																	

G/TBT/N*	SDD	Fecha Límite	Producto	Miembro/Proyecto
				<ol style="list-style-type: none"> 1. Clarify the allowable tolerance range for declared caffeine content in high caffeine products; 2. Add consumer warning statement on beer can label as "don't use directly on cooking appliances such as gas stoves"; 3. Delete the mandatory labelling "not microwavable" on utensils, containers and packages made of polystyrene, melamine-formaldehyde resin, phenol-formaldehyde resin, urea-formaldehyde resin; 4. Require the labelling "microwavable" if the utensils, containers and packages are made of synthetic resin appropriate with KS S5603:2007 (Plastics food receptacles for microwave oven use) standard; 5. Require the declaration of materials used in utensils, containers and packages made of rubber; 6. Amend labelling regarding the term "MSG"; 7. Establish labelling standards on tank lorry for foods; 8. Amend labelling method of alcoholic beverages (distilled spirits and whisky are not required to list the ingredients or raw materials used in their production on the product label); 9. Improve labelling method of ingredients; 10. Foods made from wheat, rye, barley or their crossbred varieties which have been specially processed to remove gluten, given that the gluten level does not exceed 20mg/kg in total, may be labelled as "Gluten-Free"; 11. Establish mandatory requirements of labelling the content of red pepper powder on primary display panel of 'Gochujang' (hot pepper paste); 12. Prohibit the use of the term "water" as part of a beverage products" name which has similar characteristics as "drinkable water" (ex. Clear liquid, etc); 13. Remove the mandatory labelling of colour index and activity for enzyme (food additive)
KOR/538	14/11/2014	13/01/2015	Biological products	<p>Republic of Korea - Biological products (in Korean) Proposed amendments to the "Regulation of Review and Authorization on Biological Products, etc." (MFDS Notification No. 2014-330)</p> <ol style="list-style-type: none"> 1. Medical products only for export will be granted to receive a separate product approval; 2. Medical products that are difficult to be manufactured domestically due to their unique properties will be granted to allow parts of their manufacturing process to be conducted as overseas commissioned manufacturing; 3. Provide packaging unit information of a product; 4. Within the "Certificate for Manufacture and Sales of Imported Biologicals", the requirement "active ingredient specifications" may be replaced by the authorization application dossier; 5. When applying for authorization of new and orphan medical products, it will be required to submit a "Risk Management Plan" to minimize adverse events and risk factors; 6. Improve the list of required submission documents (approval dossier) for "whole blood products and blood component products" so as to consider the different characteristics of blood products; 7. In granting authorization for biological products, the manufacturing method for bulk and finished products are required to be stated in the "manufacturing method" section, and the manufacturing method for final bulk is required to be stated in the "criteria and testing methods" section. The latter requirement will be deleted to address this redundancy.
