3

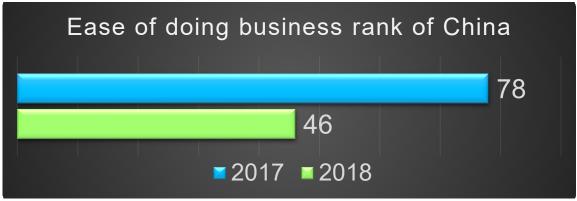

Remarkable Results

China Regulatory Reforms

Improving Business Environment

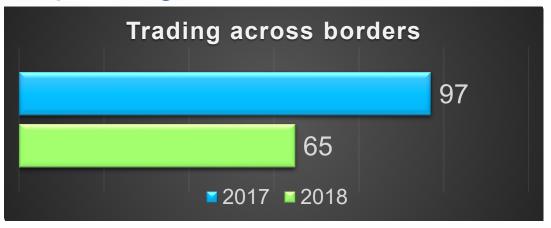

"China is the only economy from East Asia and the Pacific to join the list of 10 top improvers."

Improving Business Environment

"China government took a carefully designed approach to reform, aiming to improve the business regulatory environment over the course of several years."

Unifying clearance

Unifying enforcement

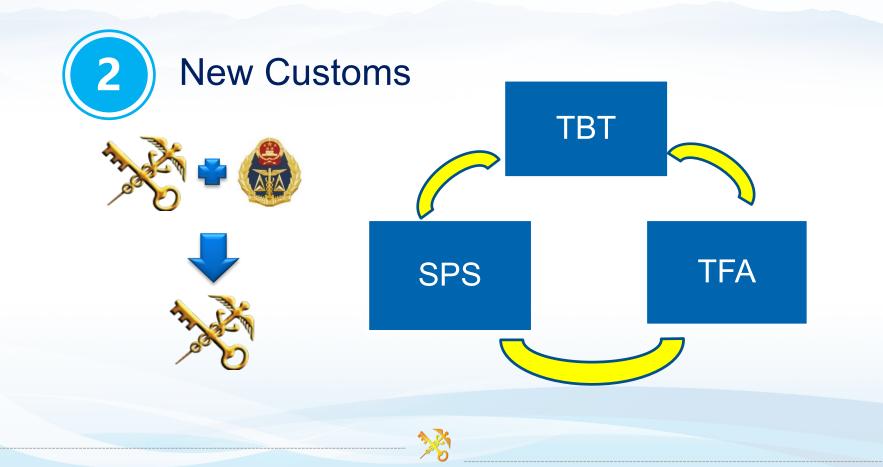

Unifying risk analysis

Unifying systems

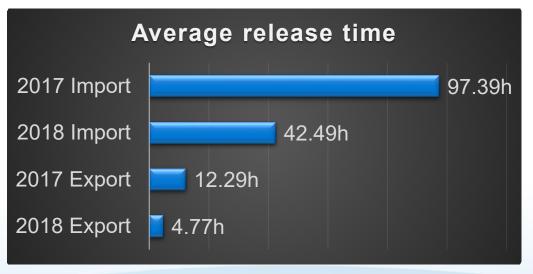

Unifying instructions

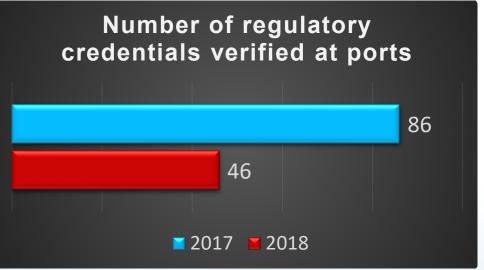

In retrospect of 2013-2018

Let the market play a decisive role in allocating resources

Relax the government control

Broaden market access

4

Views & Suggestions

for Promoting GRP

GRP is an important tool to avoid unnecessary trade barrier from technical regulatory.

The pace of implementing GRP in different members may adapt to local legislation tradition and status of economic and social development.

Need sufficient time to explore and improve GRP implementation

The pace of implementing GRP in different members may adapt to local legislation tradition and status of economic and social development.
