Environment

Notice requiring the preparation and implementation of pollution prevention plans in respect of mercury releases from mercury switches in end-of-life vehicles processed by steel mills

<http://canadagazette.gc.ca/partI/2007/20071229/html/notice-e.html#i1>

Regulations Amending the Gasoline Regulations

The proposed amendments would also remove the regulatory provisions which allow the production, import and sale of leaded gasoline for use in farm machinery, boats, and large trucks. In addition, the proposed amendments would update the regulatory references to test methods for determining lead and phosphorus content in gasoline

<http://canadagazette.gc.ca/partI/2007/20071222/html/regle1-e.html>

Transport

Regulations Amending the Motor Vehicle Safety Regulations (Low-speed Vehicles)

The proposed Regulations would update the definition of the LSV to clarify the original reason for establishing the LSV class, which was to allow the use of such vehicles for short trips, such as shopping, social and recreational purposes, in limited, planned and controlled environments.

Motor Vehicle Safety

Notice requesting comments on the intention to amend section 215, "Bumpers," of the Motor Vehicle Safety Regulations

<http://canadagazette.gc.ca/partI/2007/20071013/html/notice-e.html#i10>

Food and Drug Regulations — Amendments

Health Canada has received a submission to permit the use of acesulfame-potassium, sucralose or a combination of these sweeteners in standardized canned fruit, including canned apples, peaches, pears, pineapple, grapefruit, and mandarin oranges, and in unstandardized canned fruits, including fruit cocktail, and tropical salad. The maximum level of use for acesulfame-potassium and sucralose in these products would be 0.007% and 0.025%, respectively. Evaluation of available data supports the safety and effectiveness of these sweeteners at the specified levels, either singly or in combination, in canned fruit.

Septiembre 2007

Hazardous Products Act
Corded Window Covering Products Regulations
<http://canadagazette.gc.ca/partI/2007/20070929/html/regle2-e.html>
Order Amending Schedule I to the Hazardous Products Act (Corded Window Covering Products)
<http://canadagazette.gc.ca/partI/2007/20070929/html/regle1-e.html>
This initiative is intended to protect Canadian children against the strangulation hazard posed by corded window coverings. This will be accomplished by regulating these products, such that corded window coverings sold, advertised or imported into Canada must meet the specifications of the National Standard of Canada, entitled CAN/CSA-Z600 Safety of Corded Window Covering Products, published by the Canadian Standards Association, as amended from time to time

Food and Drug Regulations — Amendments
Health Canada has received a submission to permit the use of hydrochloric acid as a pH adjusting agent in bakery fillings, flavour emulsions and icings at levels consistent with good manufacturing practice. Evaluation of available data supports the safety and effectiveness of hydrochloric acid as a pH adjusting agent in these food products.
