COMMENTS FROM THE EUROPEAN UNION CONCERNING NOTIFICATION

G/TBT/N/KOR/342

DRAFT AMENDMENT OF "ORDINANCE AND REGULATION OF MOTOR VEHICLE CONTROL ACT"

The European Union (EU) would like to thank the Korean authorities for providing the opportunity to comment on the proposed Ordinance and Regulation of Motor Vehicle Control Act.

The EU notes that the Korean authorities intend to make a number of amendments in the Korean Ordinance and Regulation of Motor Vehicle Control Act, which mainly concern the self-certification system of automobile parts.

In this context, the EU would appreciate it if Korea accepts, for the purposes of implementation of this amendment, that products complying with a UNECE Regulation (safety belts, head lamps, rear reflex reflector, rear under ride protection device), covered by a UNECE type approval certificate and bearing a UNECE marking (E-mark) are given a presumption of conformity with Korean requirements, according to the provisions of the EU-Korea FTA Agreement.

The EU would be grateful if these comments could be taken into account.
