

Committee on Technical Barriers to Trade

**NINETEENTH ANNUAL REVIEW OF THE IMPLEMENTATION AND
OPERATION OF THE TBT AGREEMENT**

NOTE BY THE SECRETARIAT¹

The WTO Committee on Technical Barriers to Trade (the Committee) will conduct its Nineteenth Annual Review of the Implementation and Operation of the WTO Agreement on Technical Barriers to Trade (the TBT Agreement) under Article 15.3 at its next meeting on 19-20 March 2014. This document contains information on developments in the Committee relating to the implementation and operation of the TBT Agreement from 1 January to 31 December 2013.

1 MEETINGS OF THE COMMITTEE	2
2 MECHANISMS FOR REVIEW OF TBT MEASURES	2
2.1 Notifications	2
2.1.1 Technical regulations and conformity assessment procedures	2

B. Observation of the Recommended Comment Period by Members in 2013	20
C. Specific Trade Concerns Raised in 2013.....	22

¹ This document has been prepared under the Secretariat's own responsibility and is without prejudice to the position of Members and to their rights and obligations under the WTO.

1 MEETINGS OF THE COMMITTEE

1.1. The Committee, pursuant to Article 13.1 of the TBT Agreement and to the Rules of Procedure, elected Mr. Jingo Kikukawa (Japan) as its Chairperson for 2013.

1.2. Three meetings were held in 2013 (6-7 March, 19-20 June and 30-31 October 2013).² At these meetings, the Committee's attention was drawn to new or revised statements on implementation and administration of the Agreement, submitted under Article 15.2. In 2013, two Members submitted a new statement under Article 15.2, and one submitted a revision to their existing statement.³

1.3. 73 specific trade concerns, 42 of which were new, were brought to the attention of the Committee with regard to potential adverse trade effects of the measures, or possible inconsistency with the Agreement.⁴

1.4. During the reporting period, the Committee held three thematic sessions on various cross-cutting issues related to the operation and implementation of the Agreement, including: good regulatory practice, standards, conformity assessment procedures, transparency, technical assistance, and special and differential treatment.

1.5. At the meeting on 6-7 March 2013, the Committee adopted its report of the Eighteenth Annual Review of the Implementation and Operation of the TBT Agreement under Article 15.3 (G/TBT/33). At the same meeting, the Committee carried out the Eighteenth Annual Review of the Code of Good Practice for the Preparation, Adoption and Application of Standards (hereafter 'the Code'). This work was based on the following background documents: a list of standardising bodies that have accepted the Code since 1995 (G/TBT/CS/2/Rev.20) and the Eighteenth Edition of the WTO TBT Standards Code Directory, prepared by the ISO/IEC Information Centre.

1.6. During the reporting period, representatives of the BIPM, Codex, IEC, ISO, UNECE, and OIML, updated the Committee on activities relevant to the work of the TBT Committee, including on technical assistance.

2 MECHANISMS FOR REVIEW OF TBT MEASURES⁵

2.1 Notifications

2.1.1 Technical regulations and conformity assessment procedures

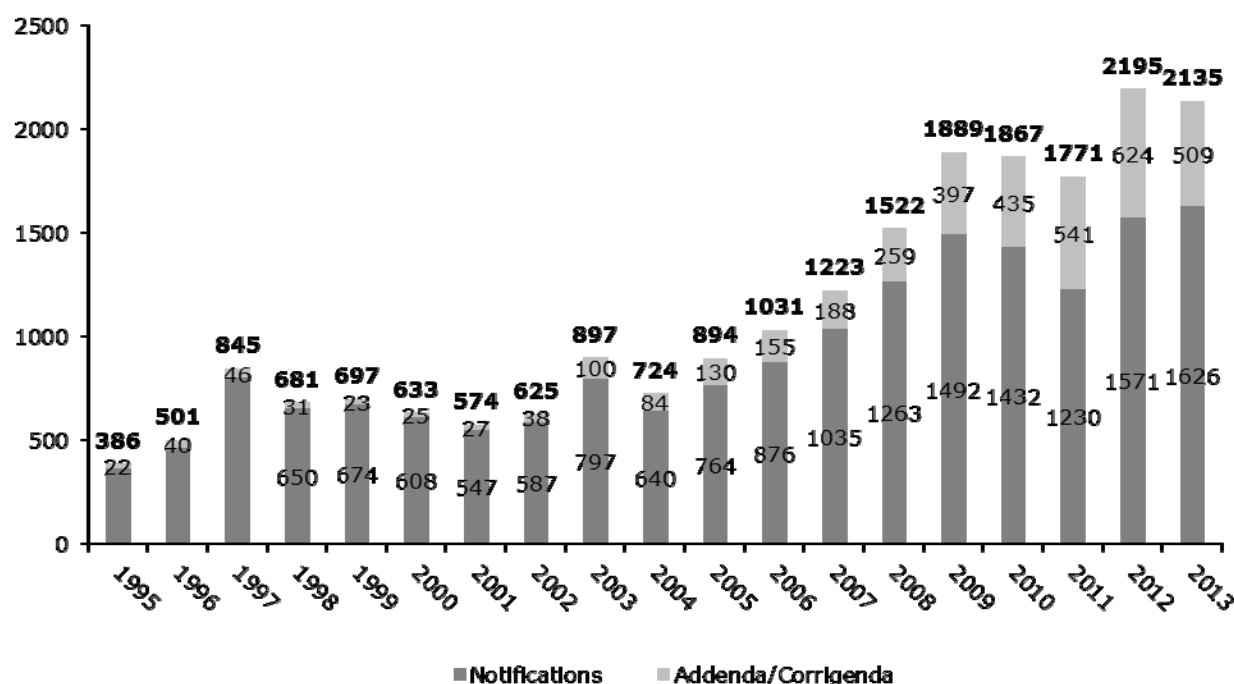

2.1. In 2013, Members submitted 1,626 new notifications (including 26 revisions) of technical regulations and conformity assessment procedures along with 467 addenda and 42 corrigenda to notifications (Chart 1). Since the entry into force of the Agreement on 1 January 1995, up to 31 December 2013, 17,418 notifications, 3,150 addenda and 524 corrigenda to these notifications have been made by 121 Members.

² G/TBT/M/59-61.

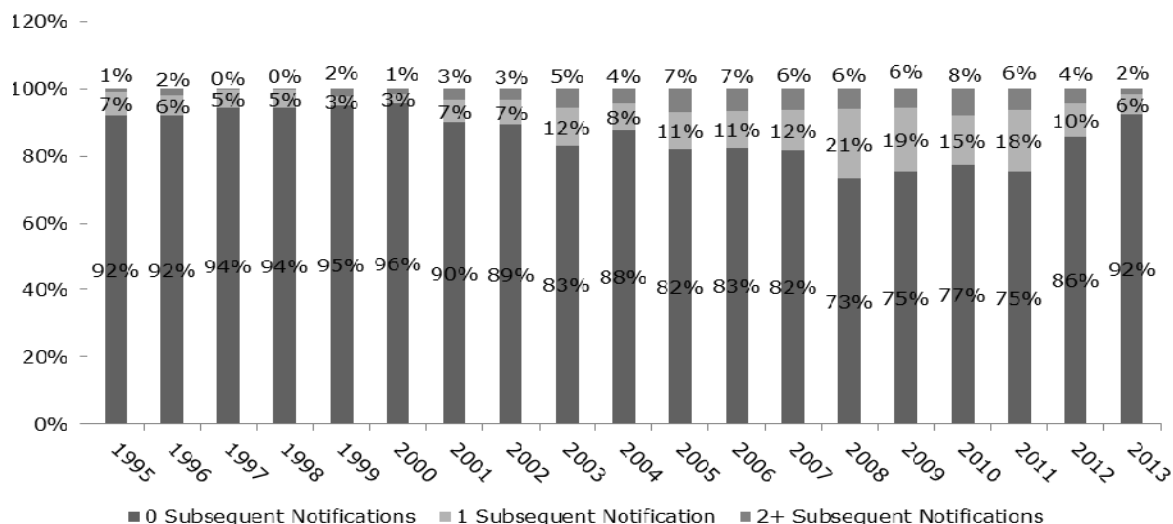

³ The full list of statements of Members having submitted a statement on implementation and administration of the TBT Agreement under Article 15.2 (since January 1995) is contained in document G/TBT/GEN/1/Rev.13. The new statements were received from Montenegro (G/TBT/2/Add.110) and Lao PDR (G/TBT/2/Add.111). Ukraine (G/TBT/2/Add.100/Rev.3) submitted a revision to its statement.

⁴ <http://tbttims.wto.org/>

⁵ The data for the graphs in this section are drawn from the TBT IMS, more detail is contained in Annexes A and B.

Chart 1: Number of TBT Notifications since 1995

2.2. The share of notifications to which one or more addendum, corrigendum, or revision was submitted increased to around 25% over the years 2008-2011 (see Chart 2) and then appears to have declined in 2012 and 2013.⁶

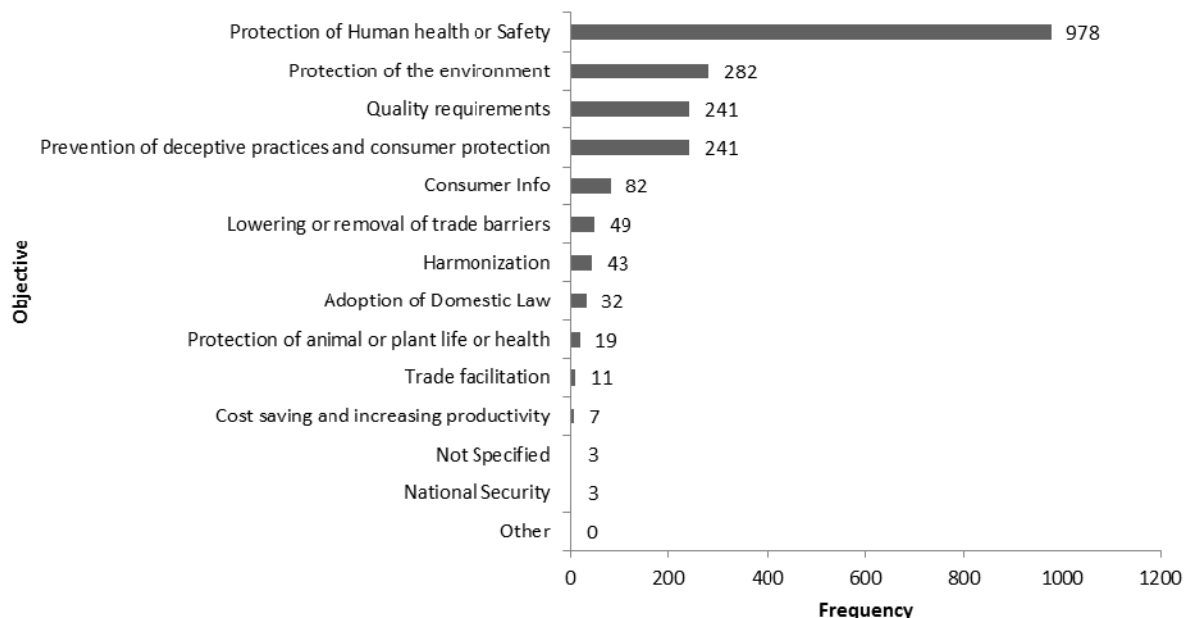

Chart 2: Share of TBT Notifications Subject to Subsequent Notifications (Addenda, Corrigenda, or Revisions) since 1995⁷

⁶ The Committee is currently working on guidelines for the coherent use of notification formats (JOB/TBT/68).

⁷ Addenda, corrigenda and revisions are counted in the year of the parent notification, not the year in which they were issued. For 2012 and 2013, the time period following the distribution of notifications may not have been sufficiently long in order to draw conclusions regarding trends in subsequent notifications for those years.

2.3. Among the 1,626 notifications received in 2013, the following objectives were most frequently mentioned by Members: protection of human health or safety; protection of the environment; quality requirements; prevention of deceptive practices and consumer protection. Other objectives mentioned included: consumer information; lowering or removal of trade barriers; harmonization; adoption of domestic law; protection of animal or plant life or health; trade facilitation; cost saving and increasing productivity; and national security (See Chart 3).

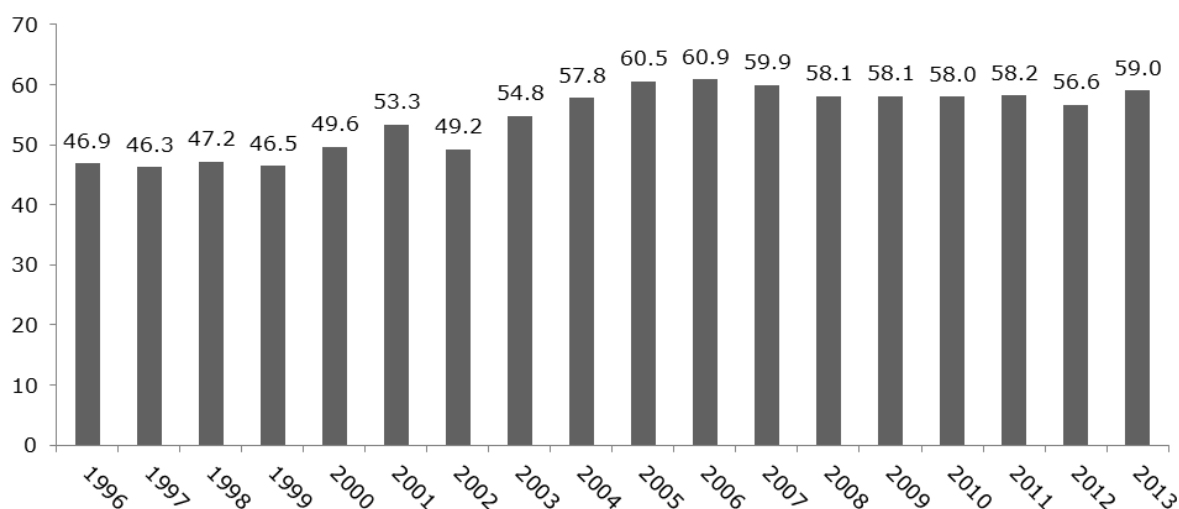

Chart 3: Notifications in 2013 by Objective⁸

2.4. In 1995, the Committee recommended that the normal time-limit for presentation of comments on notified technical regulations and conformity assessment procedures should be 60 days. It was also recommended that any Member able to provide more than 60 days (such as 90 days) was encouraged to do so.⁹ In 2013, Members allowed an average of 59 days for comments in the 1,501 cases where they specified a comment period in notifications. In total, 125 notifications did not specify a comment period, stated it as non-applicable, or had a comment period which had lapsed (see Annex B). Chart 4 shows the average time allowed for comments since 1995.

⁸ Notifications may refer to multiple objectives.

⁹ G/TBT/1/Rev.11, page 23.

Chart 4: Average Number of Days Allowed for Comments since 1995¹⁰

2.1.2 Notifications under the Code of Good Practice for the Preparation, Adoption and Application of Standards ("the Code")

2.5. In 2013, standardizing bodies from Montenegro, Lao PDR and the Republic of Moldova accepted the Code of Good Practice. No standardizing body withdrew during the period under review. Since the entry into force of the Agreement and through December 2013, 164 standardizing bodies from 124 Members have adhered to the Code.¹¹ Document G/TBT/CS/2/Rev.20 contains a list, by Member, of standardizing bodies that have accepted the Code since 1 January 1995 through December 2013. The ISO/IEC Information Centre prepares the WTO TBT Standards Code Directory which lists all standardizing bodies that have notified their acceptance of the Code.¹²

2.1.3 Notifications under Article 10.7

2.6. In 2013, two Members notified agreements under Article 10.7 - the European Union with Israel, and the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu with Japan. Since the entry into force of the TBT Agreement, Members have submitted 139 notifications under Article 10.7 along with 6 corrigenda.

2.2 Specific Trade Concerns

2.7. Since its first meeting, Members have used the TBT Committee as a forum to discuss issues related to specific measures (technical regulations, standards or conformity assessment procedures) maintained by other Members. These are referred to as "specific trade concerns" and relate either to proposed measures notified to the TBT Committee in accordance with the notification requirements in the Agreement, or to measures currently in force. Committee meetings, or informal discussions between Members held in the margins of such meetings, afford Members the opportunity to review trade concerns in a bilateral or multilateral setting and to seek further clarification. Members regularly discuss follow-up in the Committee. In 2013, 73 specific trade concerns were raised (see Annex C). The following Charts provide information on the 406 concerns raised to date.

¹⁰ This chart covers only those notifications that specify a comment period. The chart does not take into account notifications where the comment period was not specified, was stated as non-applicable, or had lapsed at the time of circulation (in other words, the deadline for comments stated on the notification was earlier than the date of circulation of the notification).

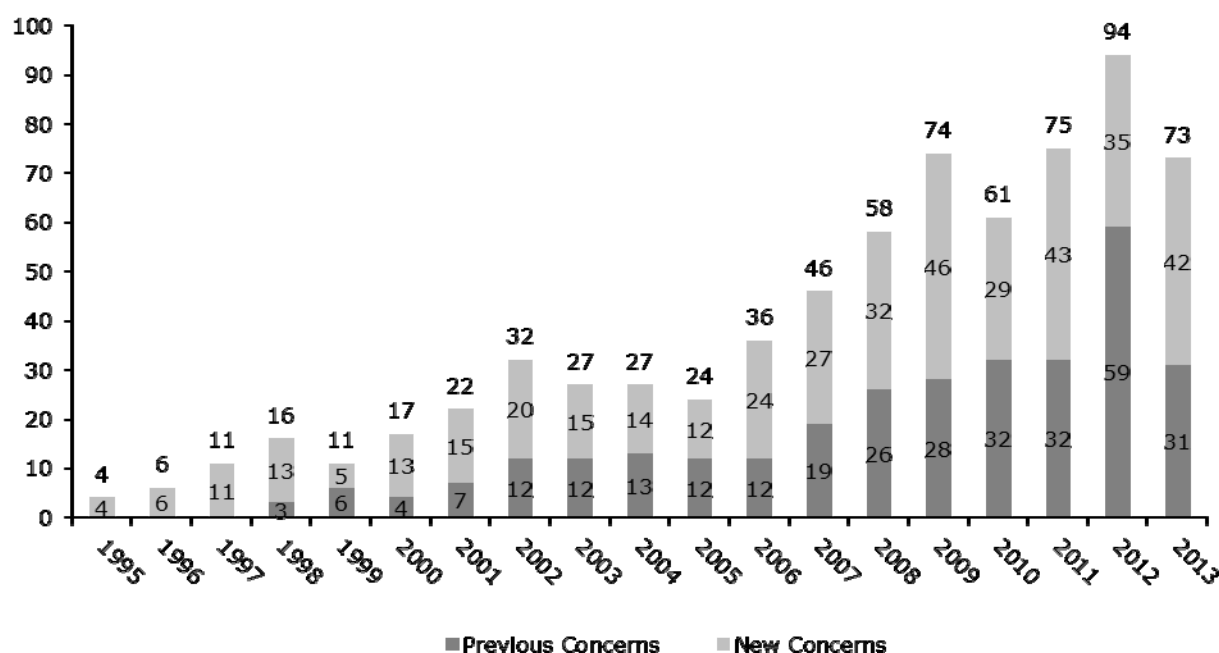

¹¹ Notifications of acceptance of the Code by standardizing bodies of Members are contained in documents G/TBT/CS/N/1-182.

¹² <http://www.standardsinfo.net/info/inttrade.html>.

2.2.1 Types and Number of Specific Trade Concerns Raised

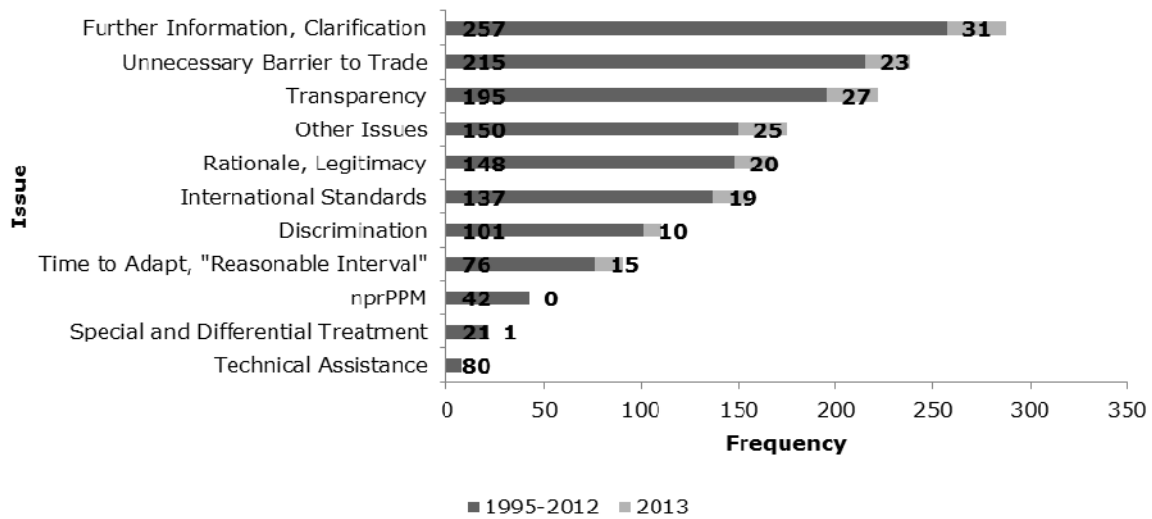

2.8. In 2013, 42 new concerns were raised and 31 previously raised concerns were discussed. Chart 5 illustrates the number of specific trade concerns addressed by the Committee each year since 1995.¹³ The total number of specific trade concerns raised in 2013 decreased from the peak in 2012, however, the number of new specific trade concerns raised for discussion increased.

Chart 5: Number of Specific Trade Concerns Raised Per Year

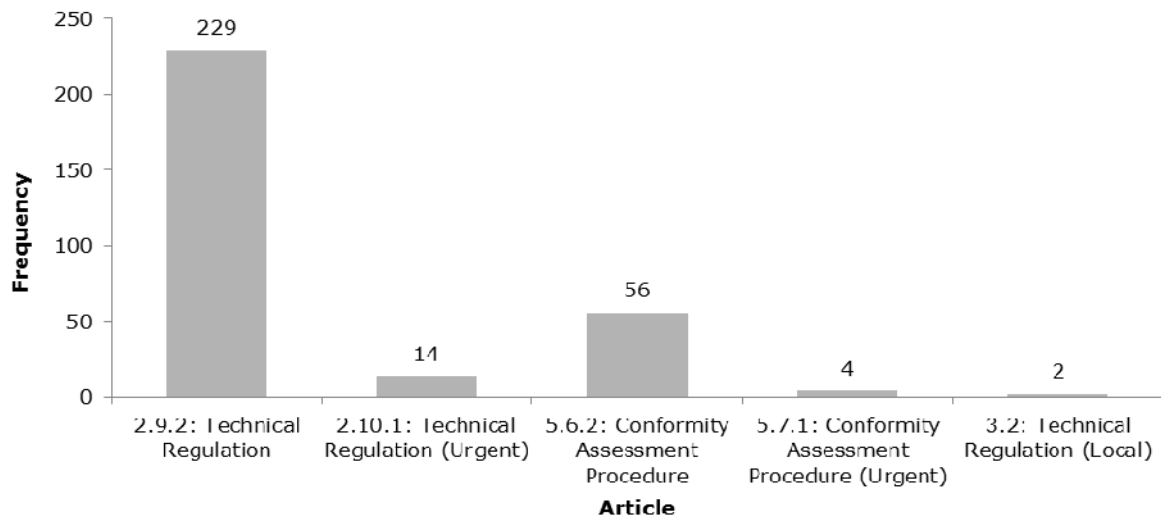

2.9. In discussions at the Committee between 1995 and 2013, the most frequently invoked concerns were those relating to the need for more information, or clarification about the measure at issue. Concerns relating to the avoidance of unnecessary barriers to trade and to lack of transparency were also frequent. As can be seen in Chart 6, the ranking of concerns in 2013 remained consistent with the long term trend.

¹³ More detail on specific trade concerns raised in the TBT Committee is available through the TBT IMS (<http://tbtims.wto.org>).

Chart 6: Types of Concerns Raised in 1995 - 2013¹⁴

2.10. Approximately 68% of the specific trade concerns discussed in the Committee to date related to notified measures (278 out of 406).¹⁵ Measures notified as technical regulations (Articles 2.9.2, 2.10.1) are most frequently discussed (Chart 7).¹⁶

Chart 7: Notified Measures Raised in Specific Trade Concerns, by Frequency¹⁷

¹⁴ For each specific trade concern covered there may be more than one type of concern raised. 'Other Issues' that have been raised include, *inter alia*, "complexity", "lack of scientific evidence", and "intellectual property". 'Time to adapt, "reasonable interval"' refers to the period between the publication of technical regulations and conformity assessment procedures, and their entry into force.

¹⁵ Eight specific trade concerns discussed in the TBT Committee were also notified to the SPS Committee.

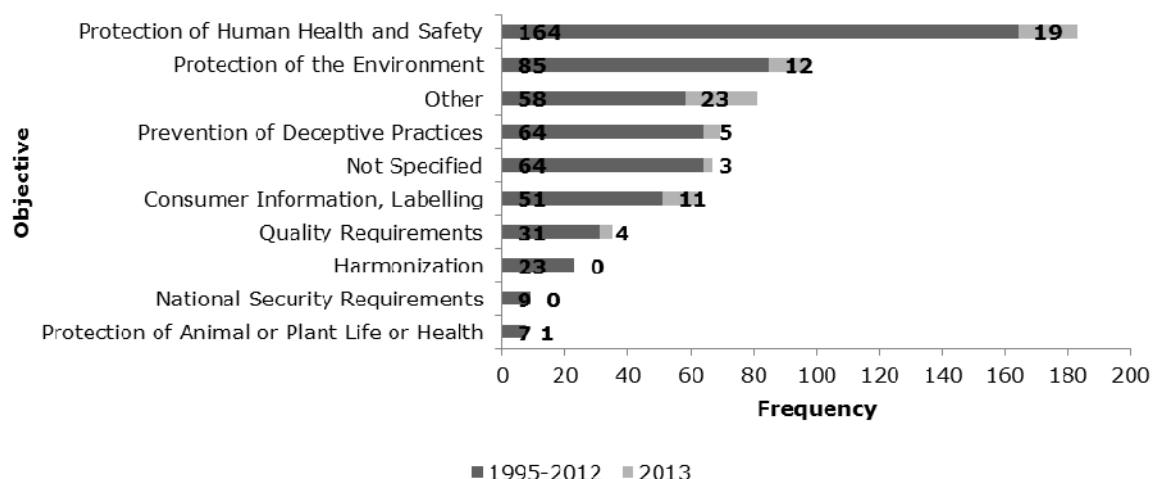

¹⁶ Some measures have been notified both as technical regulations and conformity assessment procedures.

¹⁷ Given that some measures have been notified under multiple articles, and that some concerns may be raised against multiple notified measures, the total sum of article frequency is greater than the total number of STCs.

2.2.2 Stated Objectives

2.11. Information about the stated objective of measures may be derived from the notification itself, or, when raised in the Committee, through the discussion therein. The most commonly stated objectives of measures discussed relate to the protection of human health and safety, and the protection of the environment. The category 'other' covers a wide range of stated objectives including trade facilitation and cost saving. For a significant number of trade concerns, the objective is not readily apparent from discussions and there is no notification; these stated objectives have been classified as "not specified" in Chart 8.

Chart 8: Stated Objectives for the Measures in 1995 - 2013¹⁸

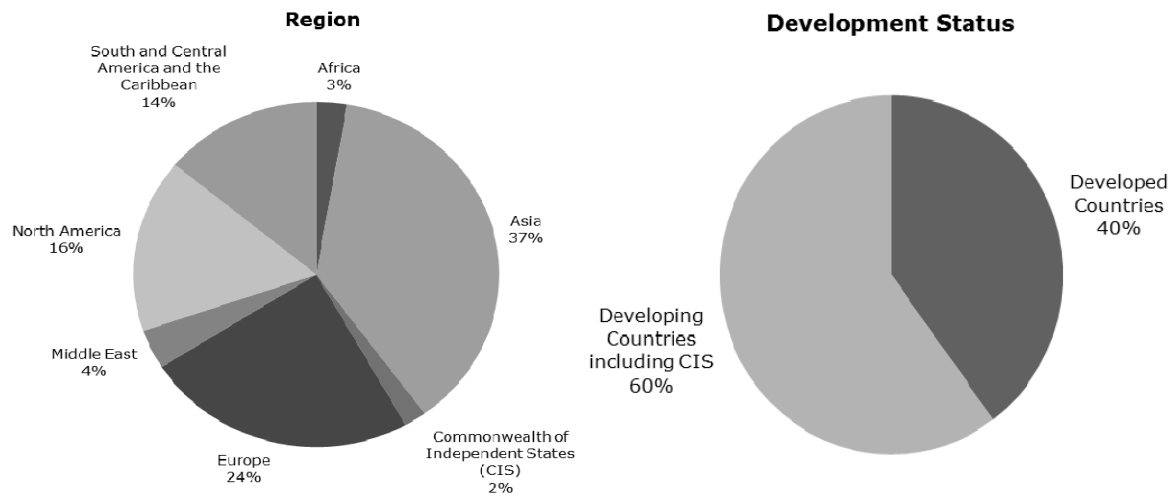

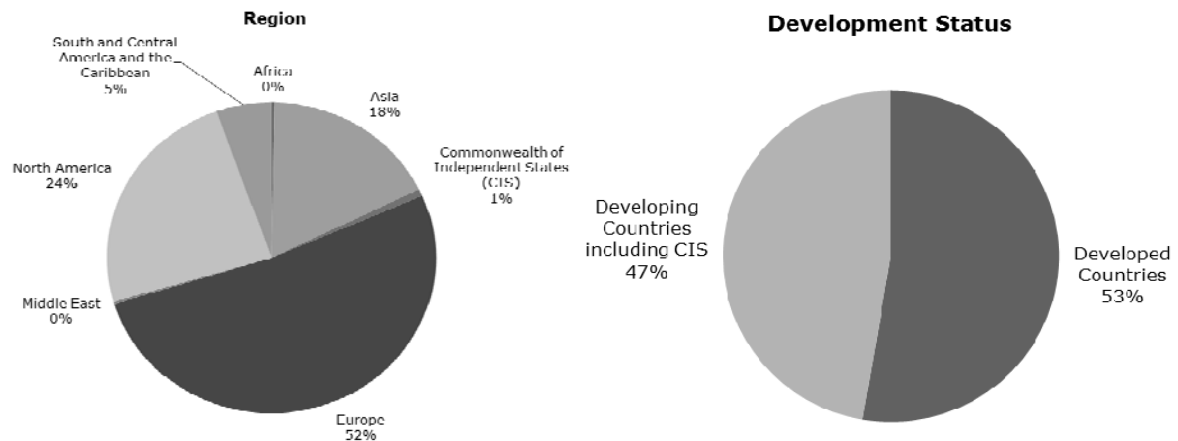

2.12. A greater number of specific trade concerns in 2013 were raised with measures that addressed "consumer information and labelling" and "quality requirements" than "prevention of deceptive practices", and there were no measures raised that related to "harmonization" or "national security requirements".

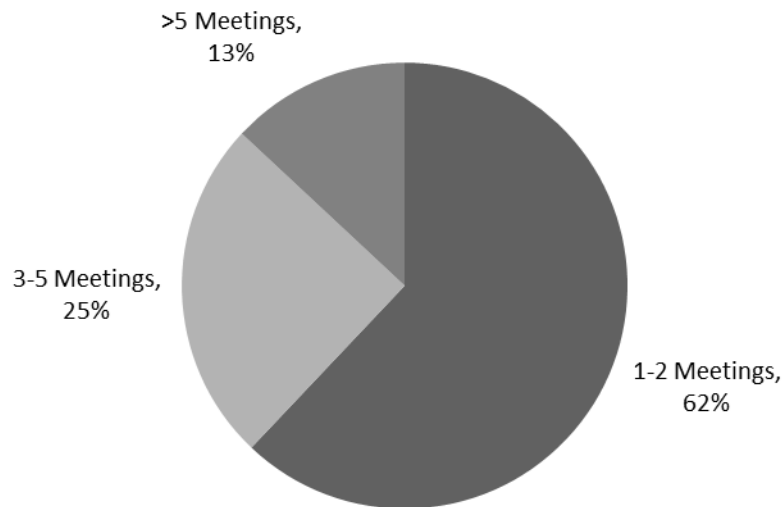

2.2.3 Distribution of Measures by Member

2.13. Most of the STCs are raised with measures maintained by Members in the Asia, Europe and North America regions. Very few STCs are raised about measures maintained by Members in the Africa, CIS and Middle East regions. No concerns about measures maintained by LDCs have been raised. Charts 9 and 10 show the distribution of region and development status of Members that have raised STCs in the TBT Committee, as well as those maintaining the measures raised in STCs.

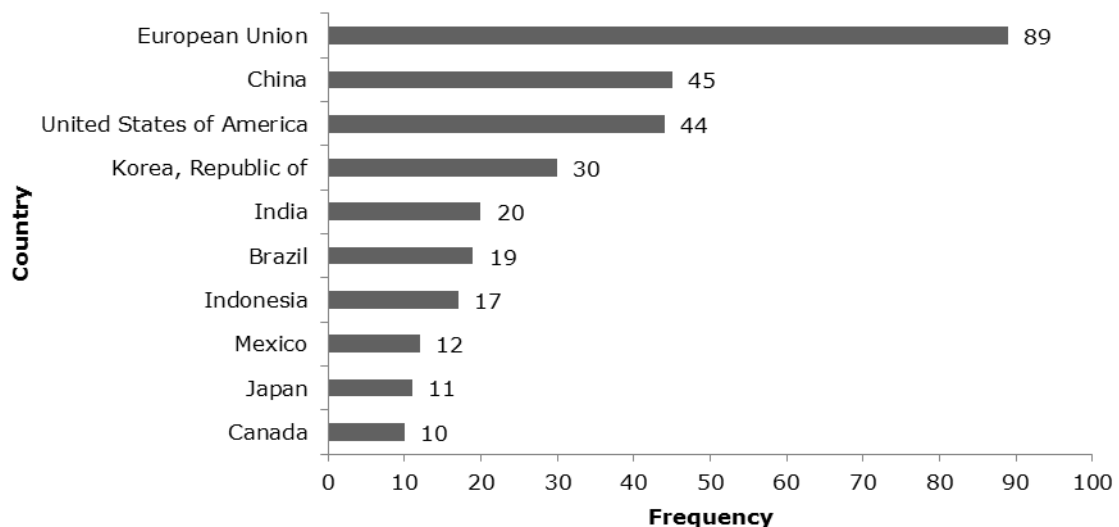

¹⁸ For each specific trade concern there may be more than one stated objective.

Chart 9: Members with Measures Subject to STCs: by Region & Development Status**Chart 10: Members Raising STCs: by Region & Development Status**

2.14. Chart 11 illustrates how frequently concerns with one particular measure are raised in Committee meetings. Most specific trade concerns have been raised once or twice. Some have been raised more than five times, and, amongst these, several have been on the agenda for a number of years.

Chart 11: Number of Meetings at Which the Same Concern is Raised

2.15. Measures maintained by the European Union, China and the United States have been most frequently raised for discussion in the Committee (Chart 12).

Chart 12: Top 10 Members whose Measures Have Been Most Frequently Discussed, 1995-2013

3 DISPUTES INVOLVING PROVISIONS OF THE TBT AGREEMENT

3.1. During the review period, a panel report relevant to the TBT Agreement was circulated. Additionally, two relevant compliance procedures and one retaliation ("suspension of concessions") procedure were initiated:

- a. *European Communities — Measures Prohibiting the Importation and Marketing of Seal Products* (Complainants: Canada and Norway). On 25 November 2013, the panel report was circulated to Members.¹⁹

¹⁹ For more detail, see: http://www.wto.org/english/tratop_e/dispu_e/cases_e/ds400_e.htm (complaint by Canada) and http://www.wto.org/english/tratop_e/dispu_e/cases_e/ds401_e.htm (complaint by Norway). This panel report is currently under appeal.

- b. *United States — Certain Country of Origin Labelling (COOL) Requirements* (Complainants: Canada and Mexico). On 19 August 2013, Canada and Mexico requested the establishment of a compliance panel. On 27 September 2013, the compliance panel was composed.²⁰
- c. *United States — Measures Concerning the Importation, Marketing and Sale of Tuna and Tuna Products* (Complaint: Mexico). On 14 November 2013, Mexico requested the establishment of a compliance panel.²¹
- d. *United States — Measures Affecting the Production and Sale of Clove Cigarettes* (Complainant: Indonesia). On 12 August 2013, Indonesia requested the authorization of the DSB to suspend concessions or other obligations pursuant to Article 22.2 of the DSU. On 22 August 2013, the United States objected to the level of suspension of concessions or other obligations and referred the matter to arbitration pursuant to Article 22.6 of the DSU. At the DSB meeting on 23 August 2013, it was agreed that the matter be referred to arbitration as required by Article 22.6 of the DSU.²²

3.2. Since the entry into force of the Agreement, 49 cases have cited the TBT Agreement in their request for consultations. A full listing of these cases can be found on the WTO website under "Disputes by Agreement".²³

4 TECHNICAL ASSISTANCE

4.1 Regional Workshops

4.1. In 2013, the Secretariat organized, in cooperation with the Singapore Government, one regional workshop on the TBT Agreement for Asia and Pacific Countries. The programme of this workshop was designed to assist participating economies from the region to consolidate knowledge of the principles and disciplines of the TBT Agreement.

4.2 National Workshops

4.2. In response to requests received from individual Members, workshops were held in Angola, Cabo Verde, Kuwait, China (TBT, SPS), Costa Rica (video-conference), Seychelles and India during 2013. These workshops were broadly aimed at promoting a better understanding of the TBT Agreement, enabling a discussion of challenges in implementation of the Agreement, and, providing an opportunity to address TBT issues of specific interest to these Members.

4.3 Geneva-Based Activities

4.3.1 Advanced Course on the Agreement on Technical Barriers to Trade

4.3. A two-week Specialized Course on the TBT Agreement was held in Geneva on 10-21 June 2013. The 25 selected participants in this advanced TBT activity were government officials from developing and least-developed WTO Members and Observers. The course was designed to promote a greater understanding of the TBT Agreement and to help participants identify concrete initiatives to deal with implementation challenges. The Course comprised a series of sessions and practical exercises related to the implementation of the Agreement. Participants also debated various TBT-relevant issues currently being discussed in the TBT Committee.

²⁰ For more detail, see: http://www.wto.org/english/tratop_e/dispu_e/cases_e/ds384_e.htm (complaint by Canada) and http://www.wto.org/english/tratop_e/dispu_e/cases_e/ds386_e.htm (complaint by Mexico).

²¹ For more detail, see: http://www.wto.org/english/tratop_e/dispu_e/cases_e/ds381_e.htm. This compliance panel was eventually composed on 27 January 2014.

²² For more detail, see: http://www.wto.org/english/tratop_e/dispu_e/cases_e/ds406_e.htm.

²³

http://www.wto.org/english/tratop_e/dispu_e/dispu_agreements_index_e.htm?id=A22#selected_agreement.

4.3.2 Other Geneva-based Activities

4.4. The Secretariat provided training on the TBT Agreement at three Advanced Trade Policy Courses as well as the Advanced Course on the Agreement on Sanitary and Phytosanitary Measures.

4.4 Regional Trade Policy Courses

4.5. TBT training was also provided in the regional trade policy courses organized by the WTO Secretariat, which were held in Botswana (for English-speaking African countries from 14-15 October 2013), Turkey for Central and Eastern Europe, Central Asia and the Caucasus Countries (CEEAC) on 23 May 2013, India (for Asia and Pacific countries) on 23 September 2013, and Tunisia (for French Speaking African Countries) on 24 May 2013.

4.5 E-Learning

4.6. In 2013, 228 participants successfully completed TBT E-Learning courses (137 participants in English, 58 participants in French, and 33 participants in Spanish). The TBT-online course is addressed to government officials from Members and Observers and covers all aspects of the TBT Agreement. The TBT online course is available throughout the year in all three languages.²⁴

²⁴ While the WTO E-Learning material is freely available in the WTO E-Learning website, participants have to register and submit a nomination form in order to participate in a monitored course, access the module exams and obtain a WTO certificate. More information can be obtained at: <http://etraining.wto.org/>.

C. Specific Trade Concerns Raised in 2013

1. The following table lists the 73 specific trade concerns raised in the TBT Committee during 2013. The second column contains the name of specific trade concern, and in parentheses, its unique identification number in the online TBT IMS (IMS ID).²⁵

2. The specific trade concerns are sorted as follows:

- a. **Date:** date of meeting when the specific trade concern was last raised (in reverse chronological order);
- b. **Frequency:** number of meetings at which the specific trade concern has been raised; and
- c. **Members:** number of Members that have expressed concern about the measure since it was first raised.

	Specific trade concerns	Date last raised	Frequency	Members
1	European Communities - Regulation on the Registration, Evaluation and Authorization of Chemicals (REACH) (ID 88)	30 October 2013	33	34
2	India - Pneumatic tyres and tubes for automotive vehicles (ID 133)	30 October 2013	22	4
3	India – Mandatory Certification for Steel Products (ID 224)	30 October 2013	13	5
4	Brazil - Health Products (ID 233)	30 October 2013	11	6
