

Submission by the International Organization for Standardization (ISO) to the WTO Committee on Technical Barriers to Trade, Geneva, 22-23 March 2005

# Recent changes in the internationally accepted vocabulary for standardization and conformity assessment

#### Introduction

- 1. The International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) have recently revised and updated their terms and definitions for the subject areas of standardization and conformity assessment.
- 2. Annex 1 to the WTO Agreement of Technical Barriers to Trade (WTO TBT) makes reference to the 1991 edition of the relevant ISO/IEC Guide 2, Standardization and related activities General vocabulary.
- 3. In the most recent revision of this Guide, which was published in November 2004 and cancels and replaces all previous editions, the previous clauses numbered 12-17 that were related to conformity assessment have been removed, revised, and republished as the new separate International Standard, entitled ISO/IEC 17000:2004, *Conformity assessment Vocabulary and general principles*.
- 4. Apart from this change, there are no other differences between the new 2004 edition of ISO/IEC Guide 2, and its previous edition that was published in 1996. Clauses 1-11 remain in ISO/IEC Guide 2:2004 unchanged.

### Content of the new vocabulary standard for conformity assessment

- 5. The new ISO/IEC 17000:2004 provides internationally accepted definitions for terms that are, *inter alia*, found in Articles 5, 6, 7 and 8 of the WTO TBT Agreement. These include definitions for terms such as:
  - acceptance
  - accreditation
  - appeal
  - approval
  - attestation
  - audit
  - certification
  - complaint
  - conformity assessment
  - conformity assessment , scheme

- declaration
- designating authority
- designation
- equal and national treatment
- equal treatment
- equivalence
- inspection
- first, second or third party conformity assessment
- national treatment

- notification
- peer assessment
- procedure
  - reciprocity
- recognition
- supplier's declaration
  - on conformity
- surveillancesampling
- testing

#### Publication of ISO/IEC 17000:2004 and link with ISO/IEC Guide 2:2004

- 6. ISO/IEC 17000:2004 was published in November 2004 at the same time as the revised ISO/IEC Guide 2:2004. In the place of clauses 12-17 in the previous edition of Guide 2 there is now a cross-reference from Guide 2 to ISO/IEC 17000. This maintains the necessary linkage between these two base vocabulary documents for internationally accepted standardization and conformity assessment practice.
- 7. WTO and its members may consider referencing ISO/IEC Guide 2:2004, which includes the cross-reference to ISO/IEC 17000:2004.
- 8. For any further information on this standard, or on ISO's role in providing the International Standards and Guides related to vocabulary and conformity assessment, please do not hesitate to contact the ISO Central Secretariat, 1, rue de Varembé, 1211 Geneva 20, Switzerland (tel: +41 22 749 01 11 or email: cas1@iso.org).
