It is deemed necessary to rearrange the importation of animal products by stipulating the regulation on importation of carcasses, meat and/or its products into the territory of the Republic of Indonesia.</p> <p>The regulation is intended to be the legal basis to conduct importation, with the aim to: protect public health, animal health and environmental health; ensure fulfilment of the requirements linked to safety and health-related concerns, as well as legal obligations; ensure imported carcasses, meat and/or its processed products are free from zoonoses and animal infectious diseases, chemical and physical hazards; provide certainty in importation of carcasses, meat and/or its processed products.</p> <p>The scope of this regulation includes:</p> <ol style="list-style-type: none"> Import requirements; Import Procedures; Control; Veterinary import requirements for poultry meat, meat and its processed products; Types of meat from cattle, carcass and/or meat other than cattle, and processed meat products that can be imported into the territory of the Republic of Indonesia; Other provisions.
IDN/102	18/2/2015	23/01/2015	Carcasses, meat and/or its processed products	<p>Indonesia - Carcasses, meat and/or its processed products (In Indonesian)</p> <p>Regulation of the Minister of Agriculture No. 02/Permentan/PD.410/1/2015 concerning Amendment on Regulation of the Minister of Agriculture No. 139/Permentan/PD.410/12/2014 concerning Importation of Carcasses, Meat and/or Its Processed Products Into the Territory of the Republic of Indonesia (CAC/GL 24-1997: Halal)</p> <p>This regulation amends the Regulation of the Minister of Agriculture No. 139/Permentan/PD.410/12/2014 concerning Importation of Carcasses, Meat and/or Its Processed Products Into the Territory of the Republic of Indonesia. This amendment is necessary in order to address conditions related to food supply, price volatility and/or emergency circumstances.</p> <p>The amendments of the revised regulation are as follows:</p> <ol style="list-style-type: none"> There are new provisions regarding the importation of carcasses and/or secondary cuts by the State-Owned Enterprises to address conditions linked to the food supply, price volatility, inflation and/or natural disasters (Article 23, paragraph 3). The intended use of beef for hotels, restaurants, catering, industrial and other special purposes imported by the State-Owned Enterprises are to stabilize prices through market operations and disaster support (Article 32, paragraph 4). Business communities, the State-Owned Enterprises, Regional Enterprises, Social Institutions, and Foreign State Representative/International Institutions which import carcasses, meat and/or its processed products shall report the realization of prior period importation when applying for a new recommendation in accordance with the Format-4 (Article 33, point d). <p>Other provisions stipulated in the Regulation of the Minister of Agriculture No. 139/Pementan/PD.410/12/2014 concerning Importation of Carcasses, Meat and/or Its Processed Products Into the Territory of the Republic of Indonesia still remain valid.</p>

KOR/248/Add.7	05/02/2015	s/f	Living underground parts of Jasminum spp	Emergency measures - Republic of Korea - Living underground parts of Jasminum spp. – Addendum Add of prohibited host The Animal and Plant Quarantine Agency (QIA), Ministry for Agriculture, Food and Rural Affairs (MAFRA) of the Republic of Korea, has added a host plant of Radopholus similis, one of the prohibited quarantine pest of the Republic of Korea, which is based on the result of Pest Risk Analysis (PRA). The import of living underground part of Vallisneria sp. and Livistona sp. from the regions specified as below will be prohibited from the consignment with phytosanitary certificate, shipped on and after 10 February 2015.
KOR/495	05/02/2015	s/f	Food products	Republic of Korea - Food products (in Korean) The Imported Food Safety Control Bill This Bill has been proposed: - To aim at improving people's health by ensuring the safety of imported food and ensuring sound transaction in food market by providing correct information to consumers; - To mandate foreign food manufacturers or food importers to register overseas food facilities including names, addresses and food items for the Ministry of Food and Drug Safety (MFDS) at least seven days prior to their first importation. The food products from foreign facilities which failed to be registered can be refused admission into South Korea. The registration should be renewed every two years; - To authorize the MFDS or the third certified party appointed by the MFDS to inspect foreign food facilities through making arrangements and agreements with foreign governments or manufacturers, in case of being necessary to ensure the safety of a imported food. If there's any facility's refusing of inspection authorized by the MFDS, food import ban from the facility is possible; - To authorize the MFDS to conduct import risk assessment about meat and meat products when requested by exporting countries for export permission. As a result of the assessment, the MFDS may notify eligible meat and meat products which comply with sanitary requirements and standards by country or by product; - To mandate food importers to register their business for the MFDS prior to the import; - To authorize the MFDS to apply differentiated test depending on non-compliance history and other risk based data, and - To mandate food importers to declare by submitting necessary documents to the MFDS, and to authorize the MFDS to review the documents and take a lab test when necessary prior to clearance at border.

It introduces amendments to CU legislation specifically to the forms of veterinary certificates for exported feed and feed

G/SPS/N*	SDD	Fecha Límite	Producto	Miembro/Proyecto
				additives of animal origin, including poultry and fish into the CU territory (Form No. 35). These amendments are the following: 1) Add the words "for canned feed humidity above 14%" after the words "botulinum toxin" in para 4.5; 2) The note should be read as follows: "The note: 1. The signature and the stamp should be different colour from the form. 2. The veterinary certificate should be made in Russian, as well as the language of the exporting country and (or) in English". Moreover, the Decision establishes that until 1 July 2015, the old veterinary certificate form is valid, along with the veterinary certificate Form No. 35, as amended.
