It stipulates the inspection, quarantine and supervision requirements for entry of aquatic animals. The purpose of this administrative measure is to implement risk-based supervision of inspection and quarantine requirements for entry of aquatic animals, and to implement classified and creditable supervision of enterprises on the basis of a risk analysis approach. This administrative measure will establish: <ul style="list-style-type: none"> • A quarantine access system to conduct risk analysis, as well as a safety and health control system to evaluate aquatic animals imported for the first time, and also to review traditional trade. The access list will be released by AQSIQ; • A traceability system, whereby overseas-based aquaculture and packaging enterprises will be requested to be registered. Chinese importers will also be requested to be registered and to establish business records; and • A safety supervision system based on an official monitoring plan to ensure the safe entry of aquatic animals. |

In this draft amendment, six articles are revised. The contents of the revised articles are:</p> <ol style="list-style-type: none"> 1. Three articles are adjusted in the hierarchy of the phytosanitary rules in order to improve the regulatory framework of plant protection and quarantine; 2. The intended purposes of importation for the designated plant regulated articles in Article 15 are revised because of consideration of the demand for utilizing the designated regulated articles or other articles (such as patent microorganisms, biological control agents, pollinators and as raw material for producing other items with no quarantine risk) of industries and for plant protection purpose. In addition, the requirements for risk assessment and management shall be established by the central competent authority; 3. The requirements for regulated articles that are imported by mail are revised; 4. The penalty in Article 24 is revised. |
