CHN/1092	04/12/2018	02/02/2019	Flavorings (compounded flavors)	China - Flavorings (compounded flavors) National Food Safety Standard of the P.R.C.: Flavorings (compounded flavors). (in Chinese) This standard applies to flavorings (compounded flavors) . It specifies the scope, terms and definitions, technical requirements, label and test methods for flavorings (compounded flavors)
CHN/1093	04/12/2018	02/02/2019	Food additives	China - Food additives - Flavouring substances and natural flavouring complexes National Food Safety Standard of the P.R.C.: General Standard for Flavouring Substances and Natural Flavouring Complexes. (in Chinese) This standard applies to flavouring substances and natural flavouring complexes authorized in National food safety standard of the P.R.C: Standard for Uses of Food Additives (GB 2760). The general requirements and testing methods for flavouring substances and natural flavouring complexes were amended.
CHN/1094	04/12/2018	02/02/2019	Food additives	China - Food additives - Ammonia solution (liquid ammonia) National Food Safety Standard of the P.R.C.: Food Additive Ammonia Solution (Liquid ammonia). (in Chinese) This standard applies to food additive liquid ammonia produced by liquid ammonia as raw materials, and to food additives ammonia solution produced by liquid ammonia after purification. Technical requirements and testing methods for food additive ammonia solution (liquid ammonia) were mainly prescribed.
CHN/1095	04/12/2018	02/02/2019	Food additives	China - Food additives - Silicon dioxide National Food Safety Standard of the P.R.C.: Food Additive Silicon Dioxide. (in Chinese) This standard is applicable to food additive silicon dioxide produced either by a vapor phase hydrolysis process (hydrolysis of silane in oxygen hydrogen flame) or by precipitation process (including gelation, reaction from sodium silicate solution to acid) and specified the technical requirements and testing methods for food additive silicon dioxide.
CHN/1096	04/12/2018	02/02/2019	Food additives	China - Food additives - Sodium hexametaphosphate National Food Safety Standard of the P.R.C.: Food Additive Sodium Hexametaphosphate. (in Chinese) This standard is applicable to food additive phosphoric acid or food additive phosphoric acid (wet process), sodium carbonate or sodium hydroxide, and food additive sodium hexametaphosphate obtained

G/SPS/N*	SDD	Fecha Límite	Producto	Miembro/Proyecto
				by melt polycondensation method. It specifies the technical requirements and testing methods for food additive sodium hexametaphosphate.
CHN/1097	04/12/2018	02/02/2019	Food additives	China - Food additives - Hydrogen peroxide National Food Safety Standard of the P.R.C.: Food Additive Hydrogen Peroxide. (in Chinese) This standard is applicable to hydrogen peroxide produced by anthraquinone process, refined by rectification, resin adsorption method, ion exchange resin method or membrane separation method. It specifies the technical requirements and testing methods for food additive hydrogen peroxide.
CHN/1098	04/12/2018	02/02/2019	Food additives	China - Food additives - Phosphoric acid National food safety standard of the P.R.C.: Food Additive Phosphoric Acid (By Wet Process). (in Chinese) This standard applies to food additive phosphoric acid (by wet process) made from crude phosphoric acid by purification, solvent extraction and other refining processes. This standard specifies the technical requirements and testing methods.
CHN/1099	4/12/2018	02/02/2019	Food additives	China - Food additives - D-xylose National Food Safety Standard of the P.R.C.: Food Additive D-xylose. (in Chinese) This standard applies to food additive d-xylose using corn cob, wood and others as raw materials produced by such processes as hydrolyzing, discoloring, purifying, evaporating, crystallizing and drying reaction in the presence of sulfuric acid catalyst. This standard specifies the technical requirements and testing methods for the food additive d-xylose.
CHN/1100	4/12/2018	02/02/2019	Food additives	China - Food additives - Monosodium L-glutamate National Food Safety Standard of the P.R.C.: Food Additive Monosodium L-glutamate. (in Chinese) This standard applies to food additive Monosodium L-glutamate using carbohydrates (such as starch, corn, molasses) as raw materials produced by microorganisms (corynebacterium glutamicum and so on) fermenting, extracting, neutralization, crystallization, separation and drying reaction. This standard specifies the technical requirements and testing methods for the food additive Monosodium L-glutamate.
CHN/1101	4/12/2018	02/02/2019	Food additives	China - Food additives - Carmine cochineal and carmine cochineal aluminum lake National Food Safety Standard of the P.R.C.: Food Additives Carmine Cochineal. (in Chinese) This standard applies to food additives Carmine Cochineal, it includes Cochineal extract that is the concentrated solution obtained after removing the alcohol (ethanol and/or methanol) from an aqueous, aqueous alcoholic or alcoholic extract of cochineal, and/or Carmine that is obtained by a hydrated aluminium chelate of in aqueous extraction of cochineal. It also specifies the technical requirements and detection methods for food additives Carmine Cochineal.
CHN/1102	4/12/2018	02/02/2019	Food additives	China - Food additives - Annatto extract National Food Safety Standard of the P.R.C.: Food Additives Annatto Extract. (in Chinese) This standard applies to food additives Annatto Extract, it includes Bixins and Norbixins. The Bixins are obtained by the removal of the outer coating of the seeds of the annatto tree with one or more of solvents or cold, mildly-alkaline water and precipitate process. The Norbixins are obtained by further hydrolysed in hot alkaline solution and precipitate process. It also specifies the technical requirements and testing methods for food additives Annatto extract.
CHN/1103	4/12/2018	02/02/2019	Food additives	China - Food additives - Chlorophyllin copper potassium salts National Food Safety Standard of the P.R.C.: Food Additive Chlorophyllin Copper Potassium Salts. (in Chinese) This standard applies to food additive chlorophyllin copper potassium salts using silkworm excrement or grass, lucerne, nettle, spinach and other plants as raw material to extract chlorophyll or using chlorophyll directly, then saponifying and copper substitution reaction. The following solvents may be used for the extraction:

G/SPS/N*	SDD	Fecha Límite	Producto	Miembro/Proyecto
				acetone, dichloromethane, methanol, ethanol, propan-2-ol and hexane. This standard specifies the technical requirements and testing methods for the food additive chlorophyllin copper potassium salts.
CHN/1104	4/12/2018	02/02/2019	Food additives	China - Food additives - Beta-carotene National Food Safety Standard of the P.R.C.: Food additive beta-carotene (derived from <i>Dunaliella Salina</i>). (in Chinese) This standard applies to food additive beta-carotene using <i>Dunaliella Salina</i> as raw material produced by the method of physics of extracting with d-limonene. This standard specifies the technical requirements and testing methods for the food additive beta-carotene (derived from <i>Dunaliella Salina</i>) .
CHN/1105	4/12/2018	02/02/2019	Food additives	China - Food additives - Metatartaric acid National Food Safety Standard of the P.R.C.: Food additives Metatartaric Acid. (in Chinese) The standard applies to food additive Metatartaric acid which tartaric acid was baked at 168°C~172°C for 3.5h or was heated to 180°C~190 °C then cooled food naturally additive prepared by partial tartaric acid. The content of Metatartaric acid and tartaric acid, rate of decarboxylation, residue on ignition, Substances darkened, Oxalic acid salt test, the residues of lead and arsenic were stated and the odour, colour and luster of Metatartaric acid were also stated.
CHN/1106	4/12/2018	02/02/2019	Food additives	China - Food additives - Corn color National Food Safety Standard of the P.R.C.: Food Additive Corn Color. (in Chinese) This standard applies to corn color which is obtained by extracting and concentrating corn and/or corn by-products with organic solvents.
CHN/1107	4/12/2018	02/02/2019	Food additives	China - Food additives - Soluble soybean polysaccharide National Food Safety Standard of the P.R.C.: Food Additive Soluble Soybean Polysaccharide. (in Chinese) This standard is applicable to soluble soybean polysaccharide, a food additive produced by extraction and purification of soybean or soybean meal. The production materials, production process, chemical structure, technical requirements and detection methods of soluble soybean polysaccharide are mainly specified.
CHN/1108	5/12/2018	03/02/2019	Food additives	China - Food additives - Sodium dehydroacetate National Food Safety Standard of the P.R.C.: Food Additive Sodium Dehydroacetate. (in Chinese) This standard applies to food additive sodium dehydroacetate produced by the reaction of dehydrogenated acetic acid and sodium hydroxide (or sodium carbonate or sodium bicarbonate) . It specifies the technical requirements and testing methods for sodium dehydroacetate.
CHN/1109	05/12/2018	03/02/2019	Food Additive Calcium Alginate	China - Food Additive Calcium Alginate National Food Safety Standard of the P.R.C.: Food Additive Calcium Alginate. (in Chinese) This standard applies to food additive calcium alginate which is produced from the reaction of alginic acid with calcium hydroxide or calcium carbonate. And the alginic acid is extracted from <i>Laminaria</i> , <i>Macrocystis</i> and <i>Ascophyllum</i> . It specifies the technical requirements and testing methods for calcium alginate.
CHN/1110	05/12/2018	02/02/2019	Food additives	China - Food additives - Spirulina blue National Food Safety Standard of the P.R.C.: Food Additive Spirulina Blue (Algae Blue, Lina Blue). (in Chinese) This standard applies to spirulina blue (algae blue, lina blue) which is obtained from the Spirulina cultured in fresh water or sea water through the process of water extraction and purification.
CHN/1111	05/12/2018	03/02/2019	Food additives	China - Food additives - Gluconic acid-δ-lactone National Food Safety Standard of the P.R.C.: Food Additive Gluconic Acid-δ-lactone. (in Chinese) This standard is applicable to food additive gluconic acid-δ-lactone, which is prepared with sodium gluconate as raw material, dissolved, cation-exchange sodium, concentration, crystallization, centrifugation and drying. The technical requirements and testing

G/SPS/N*	SDD	Fecha Límite	Producto	Miembro/Proyecto
				methods of-δ-lactone for food additive were mainly defined.
CHN/1112	05/12/2018	03/02/2019	Food additives	China - Food additives - Rosa Laevigata Michx Brown National Food Safety Standard of the P.R.C.: Food Additive <i>Rosa Laevigata</i> Michx Brown (in Chinese) This standard applies to food additive <i>Rosa laevigata</i> Michx Brown using <i>Rosa laevigata</i> Michx as raw material extracted by water or alcohol and then refining, concentration and drying. This standard specifies the technical requirements and testing methods for the food additive <i>Rosa laevigata</i> Michx Brown.
CHN/1113	05/12/2018	03/02/2019	Food additives	China - Food additives - Blackcurrant red National Food Safety Standard of the P.R.C.: Food Additive Blackcurrant Red. (in Chinese) This standard applies to food additive blackcurrant red which using blackcurrant fruit or pomace as the main raw material, obtained through water and/or edible alcohol extraction and refining.
CHN/1114	05/12/2018	03/02/2019	Food additives	China - Food additives - Chitin National Food Safety Standard of the P.R.C.: Food additives chitin. (in Chinese) This product standard applies to food additives chitin which using shrimp shell, crab shell, squid pen, sepium as raw material, obtained through decalcification, deproteinization and other processes.
CHN/1115	05/12/2018	03/02/2019	Food additives	China - Food additives - Diphenyl ether National Food Safety Standard of the P.R.C.: Food Additives Diphenyl Ether. (in Chinese) This standard applies to food additives diphenyl ether obtained through synthesis technology with the phenol and chlorobenzene as raw materials.

THA/261	11/12/2018	09/02/2019	Cleaning or sanitizing products for food production and products	Thailand - Cleaning or sanitizing products for food production and products Draft MOPH Notification (No...) B.E... (...) issued by virtue of the Food Act B.E. 2522, entitled "Cleaning or sanitizing products for food production and products". (in Thai) It is deemed appropriate to establish a regulation to control the usage of chemicals in food production or directly in contact with food products in order to eliminate or reduce quantity of biological, chemical, and physical hazards contamination for the safety of consumers. The Ministry of Public Health (MOPH) therefore proposes the draft Notification of the Ministry of Public Health (No...) B.E... (...) issued by virtue of the Food Act B.E. 2522 (1979) regarding cleaning or sanitizing products for food and its production to establish the quality and safety requirements including terms of use. Key points of this notification are as follows: Clause 1. Cleaning or sanitizing products for using in food shall be specific controlled food under the Notification of the Ministry of Public Health (No. 281) B.E. 2547 (2004) Re: Food Additives dated 18 August. Clause 2. The definition of "cleaning or sanitizing products for food production and products" means food additives intently used as processing aid for washing, cleaning, eliminating or reducing quantity of biological, chemical, and physical hazards contaminated in food products. Clause 3. The products in this draft notification are categorized into three types according to the purpose of usage as follows: (3.1) Cleaning products (3.2) Sanitizing products (3.3) Cleaning and sanitizing products Clauses 4 to 6. The products in this draft notification shall be complied with the following quality and safety requirements: Composition of the products, i.e. active ingredients, food additives, flavouring agents and other ingredients shall not be hazardous or harmful to health and shall have the qualities or standards according to the criteria specified in this draft notification. For the products which contain more than two contaminants, the requirements are as follows: • Arsenic not more than 3 mg/kg; • Lead not more than 10 mg/kg. The usage of active ingredients and conditions shall be complied with permitted list as shown in Annex. Quality and safety requirements of cleaning products consisting of surfactant for washing vegetables and fruits are specified. Clause 7. Labelling requirements for the products in this draft notification shall be complied with the Notification of the Ministry of Public Health (No. 281) B.E. 2547 (2004) Re: Food Additives dated 18 August, and the following particulars shall be declared on the label, such as name of food, using instruction (including product preparation and direction for removing from food), precautionary statements, and first-aid measures, etc. Clause 8. The usage of active ingredients besides specified in the Annex of this draft notification shall be approved by the Food and Drug Administration (FDA) Thailand in advance. Manufacturers or importers shall submit the document for safety assessment as specified in the Notification of the Ministry of Public Health (No. 281) B.E. 2547 (2004) Re: Food Additives dated 18 August. Clause 9. Manufacturers or importers of the cleaning or sanitizing products for food production and products shall follow the
