

Amendment to Enforcement Order of Industrial Safety and Health Law and related ordinance about 1,3-Butadiene, Formaldehyde and Diethyl sulfate

1 1,3-Butadiene and its containing preparations, etc.

The employer who have workers engage in the work, in which workers may be exposed to 1,3-Butadiene, must take measures such as installation of sealing systems for manufacture or handling of 1,3-Butadiene to prevent health impairment of workers

2 Formaldehyde and its containing preparations, etc.

Formaldehyde will be specified in Group-2 Substance of Attached Table 3 of the Enforcement Order of Industrial Safety and Health Law. The employer who manufactures or handles Formaldehyde must take measures such as installation of sealing systems, working environment measurement to prevent health impairment of workers.

3 Diethyl sulfate and its containing preparations, etc.

The employer who have workers engage in the work, in which workers may be exposed to diethyl sulfate, must take measures such as installation of sealing systems for manufacture or handling of diethyl sulfate to prevent health impairment of workers
