

Description of content :

The Minimum Requirements for Radiopharmaceuticals shall be partially amended as follows ;

To establish the following article under The Minimum Requirements for Radiopharmaceuticals

Yttrium chloride ( $^{90}\text{Y}$ ) solution

Indium chloride ( $^{111}\text{In}$ ) solution

To add the following 2 tests and 12 reagents, test solutions and etc. under the section of  
GENERAL TESTS

Reagents, test solutions and etc.

Iminodiacetic acid chelating resin

Iminodiacetic acid chelating resin column

Strontium chloride test solution

Lanthanum chloride heptahydrate

Lanthanum chloride test solution

Hydrochloric acid test solution (0.04mol/L)

Strontium acetate test solution (1mol/L)

Strontium 90 standard solution

Yttrium 90 standard solution for beta spectrum measurement
