# Air Resources Board

## Heavy-Duty Vehicle Inspection Program Proposed Ammendments Implementation of AB 1009 (Pavley 2004)

*This page updated December 8, 2005.*

The Air Resources Board, in cooperation with the California Highway Patrol, shall develop regulations establishing inspection protocol for determining whether the engine of a heavy-duty vehicle met the federal emission standard applicable to the engine's model year at the time of manufacture, pursuant to AB 1009 (Pavley 2004).

Implementation of these regulations is slated for 2006. The regulation is scheduled to be brought before the Board at the January 26, 2005 Board hearing.

This website contains relevant documents related to this regulatory effort. Interested parties are encouraged to sign up with the programs list serve to receive mailing pertaining to the Border Inspection Program.
