Energy Conservation Program: Test Procedures for Cooking Products and Test Procedures for Portable Air Conditioners; Corrections

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Correcting amendments.

SUMMARY: The U.S. Department of Energy (DOE) published two final rules on June 1, 2016 and December 16, 2016 amending the test procedures for portable air conditioners and cooking products, respectfully. This correction republishes amendments from both rulemakings that could not be incorporated into the Code of Federal Regulations (CFR) due to inaccurate amendatory instructions. Neither the errors nor the corrections in this document affect the substance of these

rulemakings or any of the conclusions reached in support of those rules.

DATES: This correction is effective February 21, 2019. The incorporation by reference of certain publications listed in this rule was approved by the Director of the Federal Register as of February 7, 2011 and July 1, 2016.

FOR FURTHER INFORMATION CONTACT: Appliance Standards Questions, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies Office, EE–2J, 1000 Independence Avenue SW, Washington, DC 20585–0121. SUPPLEMENTARY INFORMATION: DOE published a final rule in the **Federal Register** on June 1, 2016, amending the test procedures for portable air conditioners. 81 FR 35242 DOE also published a final rule on December 16, 2016, amending the test procedures for cooking products. 81 FR 91418. This correction republishes amendments from both rulemakings that were not incorporated into the Code of Federal Regulations (CFR) due to inaccurate amendatory instructions. In the June 1, 2016 rule, which became effective on July 1, 2016, DOE amended 10 CFR 430.3, by adding paragraph (i)(8), addressing portable air conditioners. This amendment was inadvertently omitted from the CFR due to an inaccurate amendatory instruction. In the December 16, 2016 final rule, which became effective January 17, 2017, DOE also amended 10 CFR 430.3(i). The amendatory instruction for this amendment referred to paragraph renumbering in 10 CFR 430.3 that affected amendments previously established by another final rule which published on December 13, 2016, addressing residential dishwasher energy conservation standards. 81 FR 90072. This final rule correction specifies the amendments to 10 CFR 430.3(i) that were established in the June 1, 2016 portable air conditioners and December 16, 2016 cooking products test procedure final rules, referencing the revised paragraph numbering in the CFR. Additionally, in the December 16, 2016 rule, DOE redesignated paragraphs (l) through (u) as (m) through (v) incorrectly in the amendatory instruction. Specifically,

this document corrects 10 CFR 430.3(i) and 10 CFR 430.3(q) and (p).

Procedural Issues and Regulatory Review

The regulatory reviews conducted for this rulemaking are those set forth in the June 1, 2016 and December 16, 2016 final rules that originally codified the amendments to DOE's test procedures for portable air conditioners and cooking products. The amendments in the June 1, 2016 rulemaking became effective July 1, 2016 and the December 16, 2016 final rule amendments became effective January 17, 2017.

Pursuant to the Administrative Procedure Act, 5 U.S.C. 553(b), DOE has determined that notice and prior opportunity for comment on this rule are unnecessary and contrary to the public interest. Neither the errors nor the corrections in this document affect the substance of the rulemakings or any of the conclusions reached in support of the final rule. For these reasons, DOE has also determined that there is good cause to waive the 30-day delay in effective date.

I. Background and Summary of Final Rule

The authority to confirm, approve, and place into effect interim power and transmission rates for the power marketing administrations has been delegated by the Secretary through various DOE Orders. *See* DOE Delegation Order No. 0204–33 (43 FR 60636 (Jan. 1, 1979), as amended Mar. 19, 1981) and Delegation Order No. 0204–108 (Dec. 14, 1983 (48 FR 55664), as amended 51 FR 19744 (May 30, 1986), 56 FR 41835 (Aug. 23, 1991), and 58 FR 59716 (Nov. 10, 1993)). Most recently, the Secretary delegated this authority to the Under Secretary of Energy. *See* DOE Delegation Order No. 00–002.00Q (Nov. 1, 2018). The administrative updates to personnel references in this final rule are needed to make the procedures for public participation in power and transmission rate adjustments and extensions at 10 CFR part 903 consistent with the Secretary’s delegations of authority and the amended language will allow for future changes in delegations of authority. Specifically, this final rule revises DOE regulations at 10 CFR part 903 by changing certain references to “Deputy Secretary” to “the Secretary or his or her designee.” This final rule also makes corresponding changes to the
